TEKA

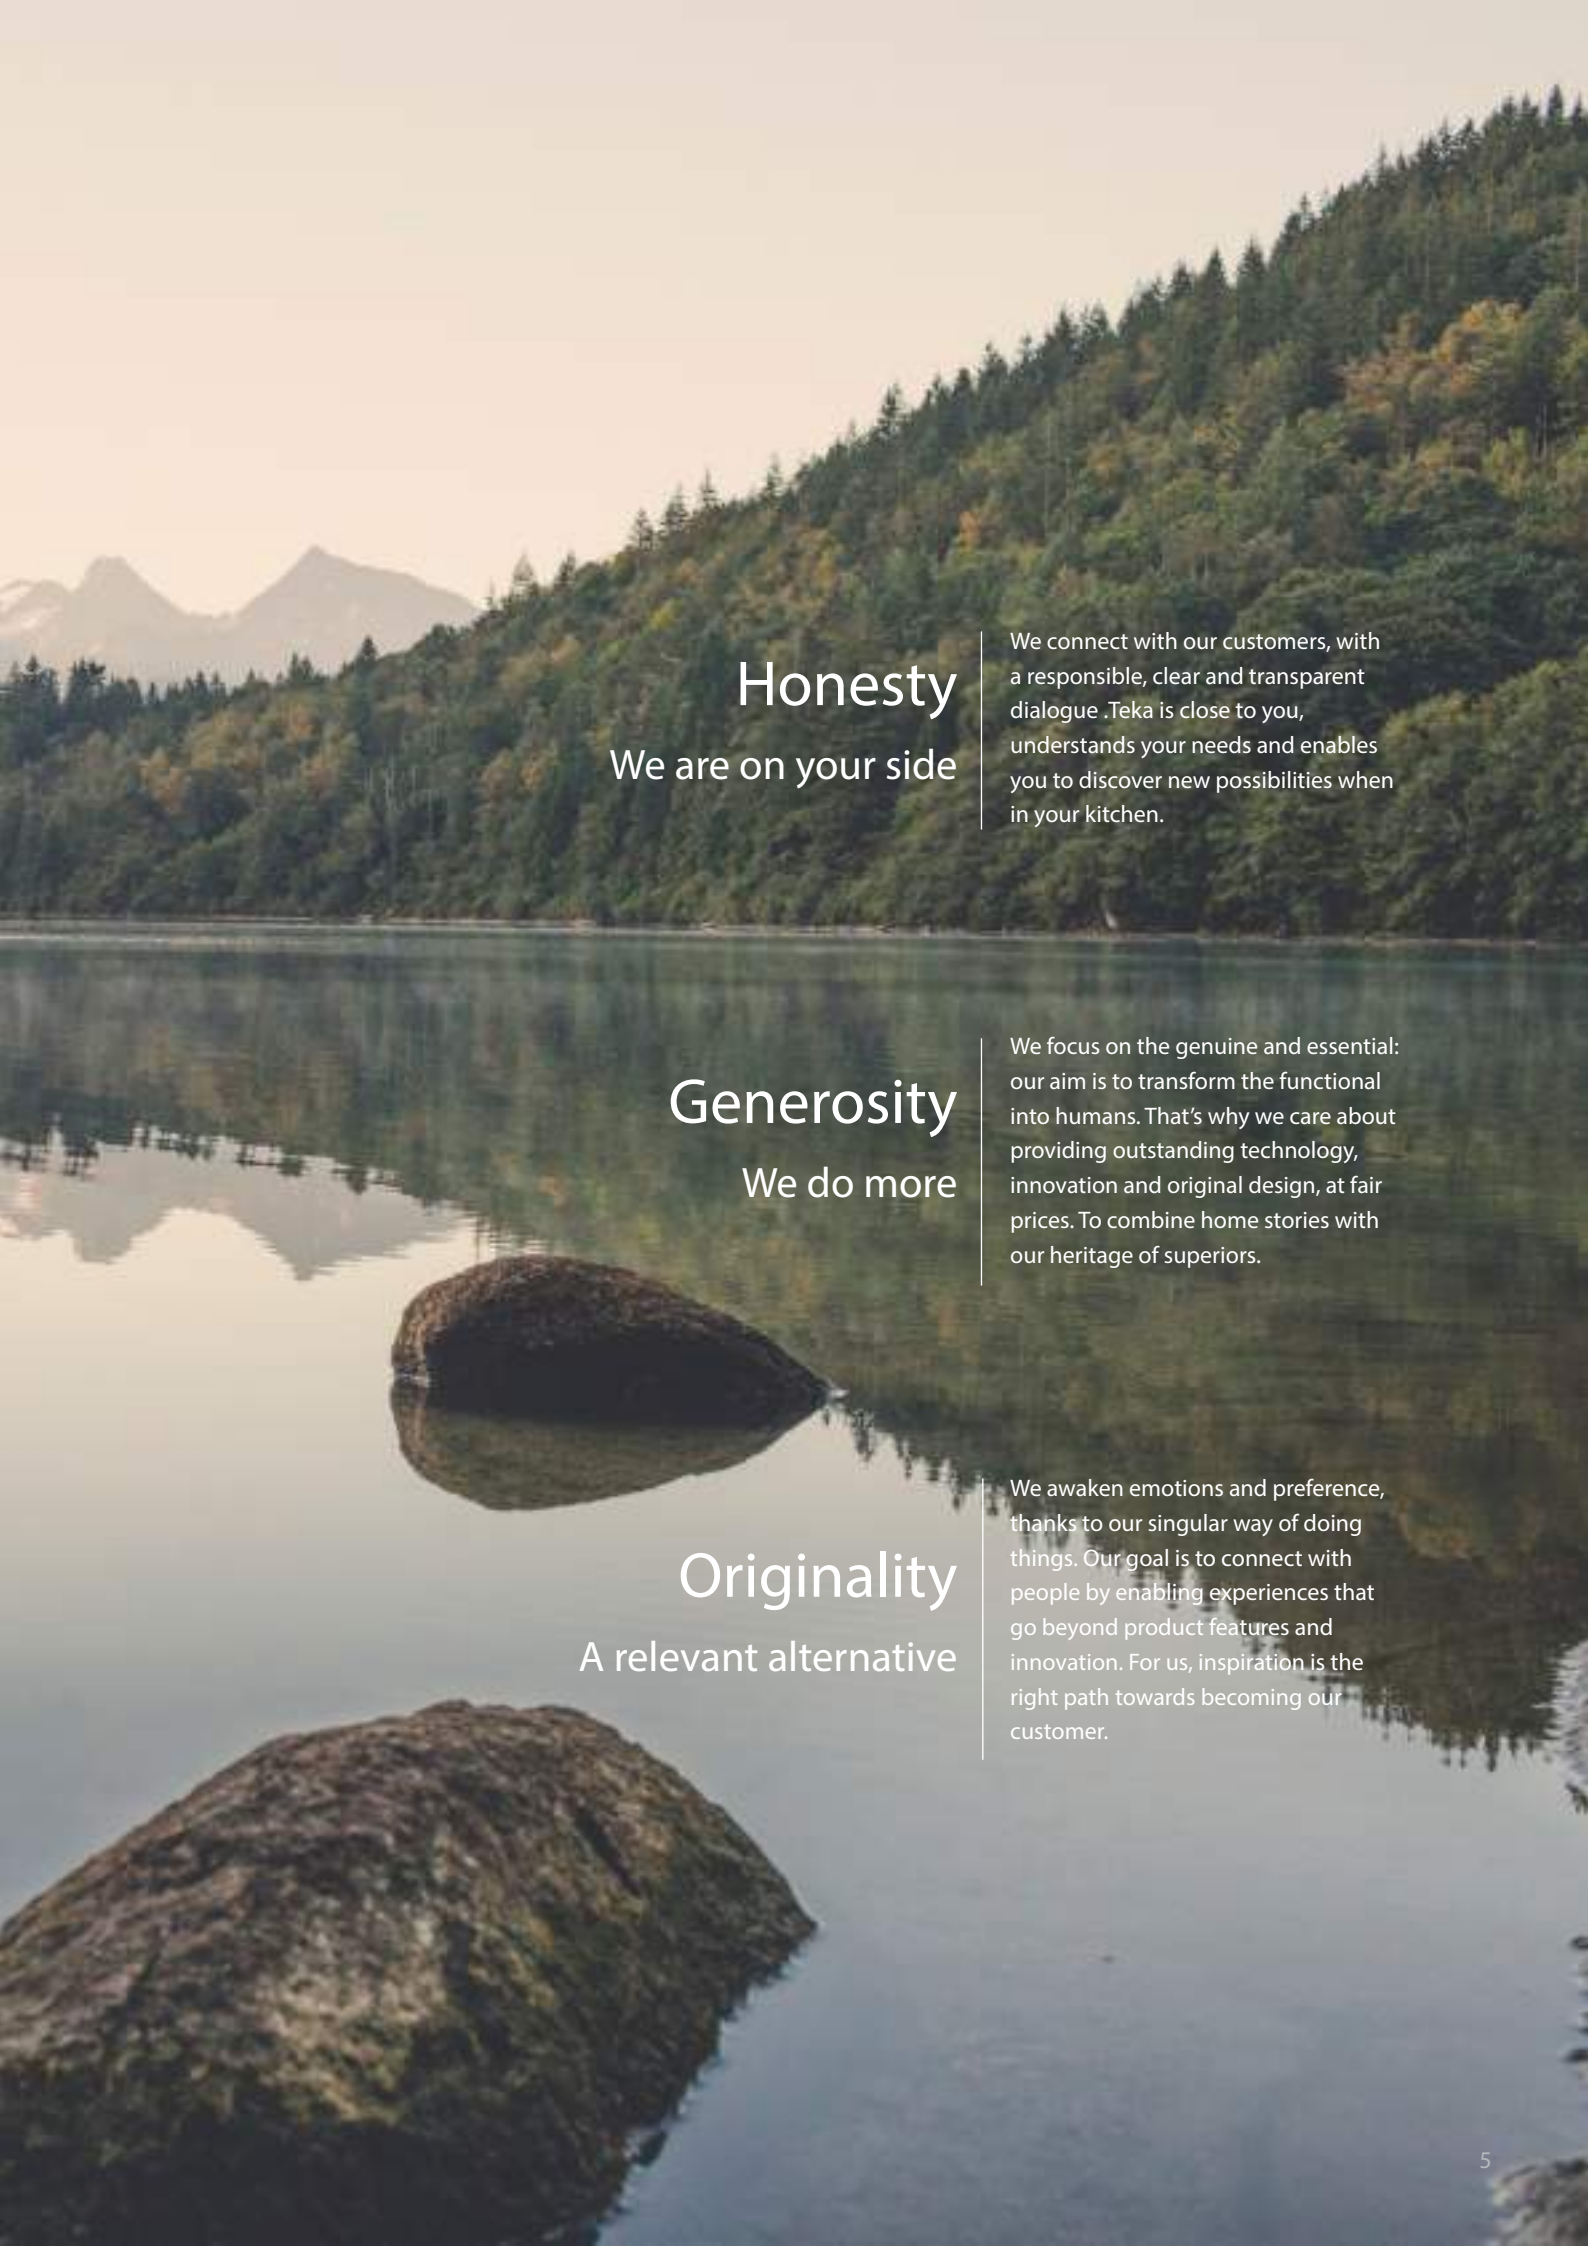

Teka Group

Thousands of solutions.
Millions of moments.

Teka Group belongs to the German Heritage B holding, being the consumption section specialist in kitchen and bath household appliances. Teka Group comprehends different worldwide leading brands, such as Teka, Küppersbusch, Intra, Mofém or Thor. The group, with more than 140 years of history, has become an international example of household appliances, kitchen sinks and sanitary manufacturing. Teka brand is one of the most important European manufacturer of stainless steel sinks, built-in kitchen appliances, and bath solutions. As of today, Teka owns 15 factories and 4.000 workers around the world, with presence in more than 120 countries in five continents.

Creating
meaningful
moments

Honesty

We are on your side

We connect with our customers, with a responsible, clear and transparent dialogue. Teka is close to you, understands your needs and enables you to discover new possibilities when in your kitchen.

Generosity

We do more

We focus on the genuine and essential: our aim is to transform the functional into humans. That's why we care about providing outstanding technology, innovation and original design, at fair prices. To combine home stories with our heritage of superiors.

Originality

A relevant alternative

We awaken emotions and preference, thanks to our singular way of doing things. Our goal is to connect with people by enabling experiences that go beyond product features and innovation. For us, inspiration is the right path towards becoming our customer.

TEKA

TEKA

SINKS

TEKA

Quality, technology and innovation above all

Every day we work to better understand your needs and create new solutions to help, all by finding new possibilities in the kitchen.

Teka devotes itself to top quality

Teka sinks are manufactured the same way a chef perfects his recipes: with the very best ingredients. The most popular material for kitchen sinks today is stainless steel: non-porous, superbly hygienic, rust-free, heat resistant and extremely durable. The stainless steel used in the manufacturing of our sinks contains the necessary amounts of chromium and nickel to create a product that is extremely resistant to denting, noise and temperature changes. Made to last a lifetime! The highest quality materials, together with the best design and functionality, make Teka sinks the silent protagonists in any kitchen.

More than just a sink

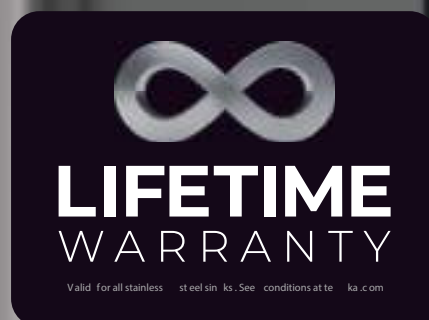

Lifetime Warranty

More than 90 years of experience in the manufacturing of sinks allows us to offer the best guarantee

Teka sinks are defined by their top quality, durability, extremely resistant austenitic stainless steel, ergonomic design, functionality, hassle free installation and excellent service. They are made in Europe and all our factories have the highest quality certifications and are environment friendly.

Sinks with unlimited lifetime warranty

At Teka, we are so confident in our quality standards that we offer an unlimited lifetime warranty on all of our stainless steel kitchen sink models for you to be completely at ease. Visit teka.com for more information.

* Warranty only applicable for residential products. Fitting excluded. All product exchanges and returns require Teka's express approval. Tap and accessories excluded..

PureClean, Extra hygiene and cleanliness with the new waterproof treatment

Our new PureClean treatment gives you a clean and dry surface, preventing the build up of bacteria in your sink. In addition to the antiseptic benefit of stainless steel, with this coating, lime, dirt, and all the particles that previously remained in the sink can be drawn away, giving you a cleaner and more hygienic product.

Anti-fingerprint, an impeccable result.

With the premium SofTexture finish that provides an anti-fingerprint surface, with a matte look that fits perfectly with the latest trends in kitchen design.

Design, a touch of sophistication through a cleaner and modern design.

Its RS15 radius makes it easy to clean and drain the water. The decorative elements elegantly cover the base of the sink. Greater capacity with a depth of 20cm.

SilentSmart, the invisible protagonist

50% less noise: maximum comfort and well-being

Is the kitchen sink one of the source of irritating noise that affects your family? RS15 Series are the best in their class. They feature a design and low-noise component to make them extremely quiet. The sound-dampening pads are their best partner. They, together with their special distribution, can reduce noise when water falls during operation, ensuring your comfort and convenience all day.

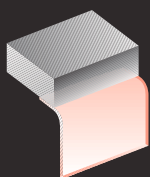

Teka sinks, maximum installation flexibility

When choosing a sink, it is necessary to consider the style of kitchen, and what can be more functionally comfortable.

Undermount

A popular option to install with stone, granite and modern composite materials. This sink is mounted and caulked from underneath using the special clips provided. Undermounting is very easy to clean, and prevents dirt from getting stuck around or below the rim, the countertop is completely smooth and the sink looks elegant and practical. The sink is absolutely waterproof!

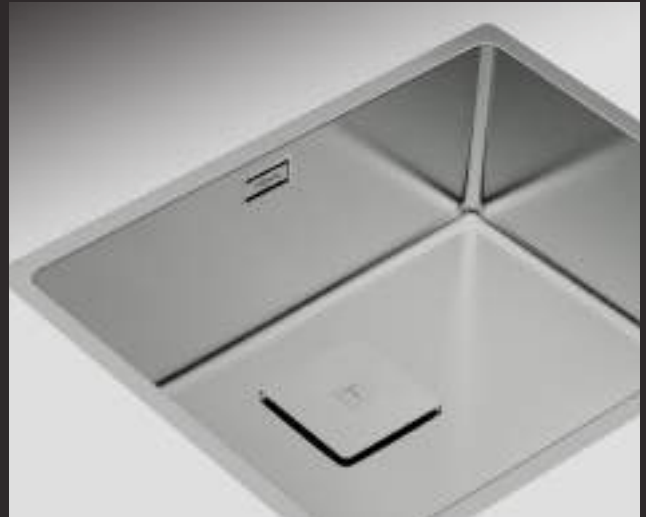

Top mount

A slimmer rim grants for an accurate positioning of the sink on your countertop. It is suitable for countertops of any material, and it is recommended especially for wood or laminates. Its small rim prevents water spilling onto the countertop.

Flush mount

Sink and countertop become one solid unit, free of awkward edges and corners. The rim of the bowl is milled into the countertop, the cut-out must be very accurate. The totally seamless working area is also aesthetically pleasing and easy-to-clean. Ideal for natural materials like stone where milling is not a problem.

Inset mount

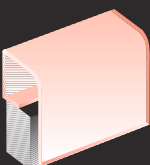

The most traditional method of installation. Simply insert from above into a prepared cut-out, and the rim of the sink sits on the work surface. Teka drop-in sinks can be mounted on virtually any worktop. The sink is fastened to the worktop from underneath, with no screws or bolts showing.

Lay on

Teka lay-on sinks are only superimposed, do not need, or use clips.

The stainless steel of the sink surrounds the edge of the countertop. Lay-on sinks can be delivered with wood supports at the sides (below the rim) to aid installation while providing structural reinforcement.

StarBright, comfort and fashion together

The new series of StarBright sinks offers a timeless style to your kitchen, adapting easily to your space thanks to its functional and contemporary design.

Flexibility in your kitchen

Deciding whether to place the drainer on the right or left will no longer be a problem - you can choose where to locate the drainer for your sink thanks to the different compositions and sizes offered by this new range. In addition, because of its design, water flows away easily, meaning the sink's condition will be better looked after and it will last for much longer.

A pure work of art, RS15 Series

If you want to enjoy your meaningful moments in an avant-garde kitchen, start by choosing a sink by Teka; it will provide your kitchen with a touch of character.

Discover everything it has to offer.

A touch of distinction and class for your kitchen

RS15 Series is characterized by:

- Teka Radius 15 offers a clean design that embodies modernity.
- The integrated manufacturing process stands for environment friendly and efficient production.
- Sinks made with high stainless steel quality, AISI 304, that grants durability and allows easy cleaning.
- An elegant design with more capacity: bowls with a depth of 20 cm!
- Deeper, more possibilities. Teka sinks allow you to wash any kitchenware even the biggest pots!
- A new SQ valve to gently cover the square basket waste, providing a refined and attractive touch in the kitchen.
- Just decide which one suits you, RS15 Series sinks range is recognized by its flexible installation: undermount, top, flush and inset.
- All the product range comes with lifetime warranty and the new SilentSmart system, which reduces water dripping sound by 50%

FlexLinea, a series with multiple possibilities

FlexLinea sinks offer distinction
and versatility at all levels.

FlexLinea, a series of sinks that satisfies all tastes

Flexibility is one of the main priorities for Teka, that's why this series has been developed.

It offers a wide variety of different sink compositions in different sizes, all of them with overflow and squared waste, to offer a look according to current trends, along with the easy-cleaning radius 15.

A sink you can install in all kind of countertops thanks to its triple mount installation option: undermount, top mount or flush mount.

All the series comes with lifetime warranty and SilentSmart system which reduces water dripping sound by 50% .

They are the best of their kind, the integrated manufacturing process stands for environmentally friendly and efficient production.

Enjoy the peacefulness offered by the lifetime warranty and the new SilentSmart system.

Undermount

Top mount

Flush mount

Zenit Series, multifunction workstation

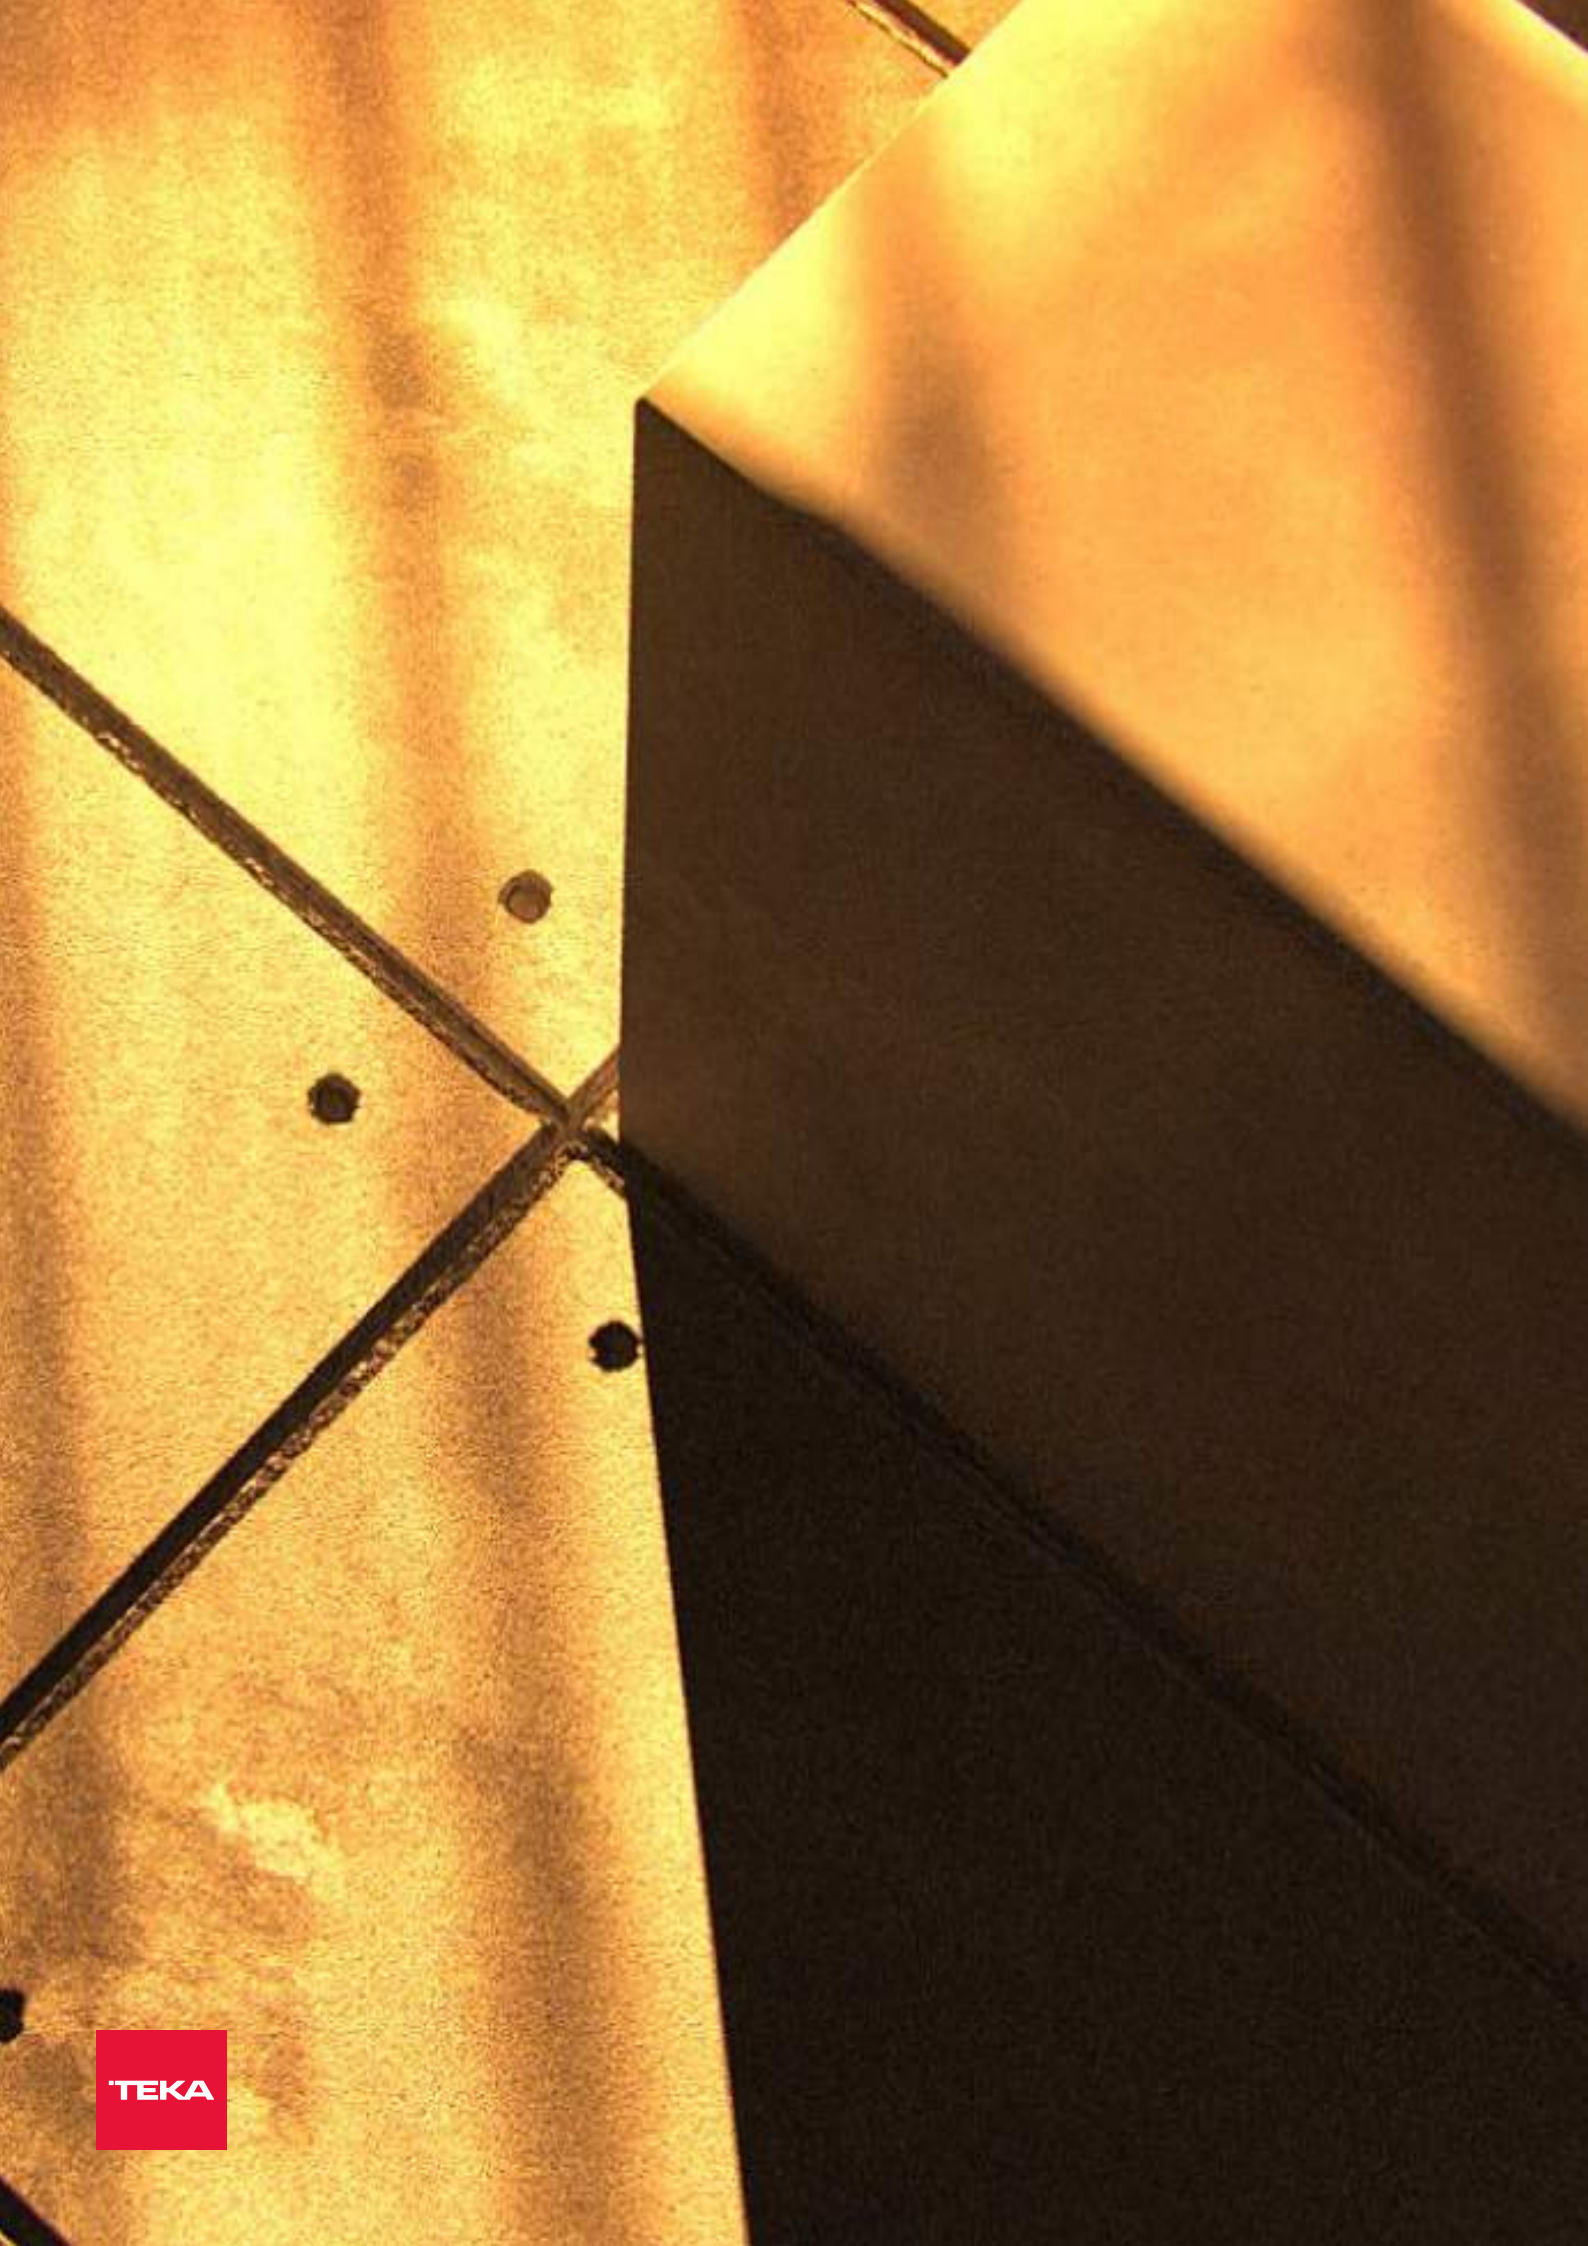

Zenit Series are distinguished by their versatility, and, above all, because they bring order in your kitchen.

More than just a sink

Zenit is not simply another series of sinks. It is a food preparation area with ergonomic accessories perfect to cut, wash, cook, serve, and... enjoy! Its new square-shaped SQ valve combines with the attractive straight lines that bring personality and design to your kitchen, with a professional look and the peace of mind offered by the lifetime guarantee and the new SilentSmart system.

TEKA

The Brooklyn Range

Authentic, Industrial Style

A series modelled on New York's iconic architecture,
transforming industrial aesthetics

The V-Control technology makes the draining of water from your sink possible. It will
provide better hygiene and convenience at the press of a button.

TAPS

A high-angle, black and white photograph of a modern kitchen sink. The sink is a light-colored, possibly stainless steel, with a square basin and a central drain. It is set into a dark, solid countertop. In the upper left corner, a cylindrical glass vase with a textured, woven pattern sits on the countertop. The background is a light-colored wall. A dark, semi-transparent rectangular box is overlaid on the right side of the image, containing the title and a paragraph of text.

The perfect partner

Sinks can be described using endless adjectives. They can be robust, elegant, powerful, etc. But, they are nothing without their counterpart: The Tap. From professional to economical ranges, Teka manufactures taps created with imagination and designs them to last. Now, enjoy your time with the perfect kitchen pair.

Overcome barriers

The best place to place the sink and the kitchen tap is in front of the window, if space permits. Opening or closing the window with a high spout tap ahead, is no longer a problem. .

Teka ceramic discs

Longer taps life

All Teka cartridges use sintered ceramic discs with high resistance. These discs all have porous surfaces which retain grease longer, helping to achieve smoother, gentler movements which help to prolong the life of the taps. The operating gear is insulated from water giving therefore continuous lubrication.

Ceramic cartridge. Greater durability.

Temperature limiter

Save the energy used to heat the water with the temperature regulator that is incorporated into the cartridge.

Water saving

The cartridge incorporates an adjustable flow gauge to save water every time you use the mixer.

Anti-Scalding

Forget about scalding caused by water at high temperatures. We take care of you and your loved ones.

* Not all taps have temperature and flow regulators in the cartridge.

ACCESSORIES

Practical, comfortable, silent and safe

Teka's new organic waste disposers help to keep the kitchen free of bacteria, odors, and rubbish in a comfortable and hygienic way.

It converts the waste into very fine particles that are removed through the pipes, reducing the volume of rubbish in the kitchen and the amount of plastic bags that are used.

TR 750

115890014

Food waste disposer
