Teka Group

Thousands of solutions.
Millions of moments.

Teka Group belongs to the German Heritage B holding, being the consumption section specialist in kitchen and bath household appliances. Teka Group comprehends different worldwide leading brands, such as Teka, Küppersbusch, Intra, Mofém or Thor. The group, with more than 140 years of history, has become an international example of household appliances, kitchen sinks and sanitary manufacturing. Teka brand is one of the most important European manufacturer of stainless steel sinks, built-in kitchen appliances, and bath solutions. As of today, Teka owns 15 factories and 4.000 workers around the world, with presence in more than 120 countries in five continents.

SCANDINAVIAN DESIGN

A close-up, artistic photograph of a hand sifting a cloud of white flour over a stack of several round, golden-brown flatbreads. In the foreground, a copper bowl filled with flour and a few brown eggs are partially visible on a dark, textured surface. The background is dark, making the white flour stand out.

Thousands of solutions. Millions of moments.

Teka Group comprehends different worldwide leading brands, such as Teka, Küppersbusch, Intra & Thor. The group, with more than 140 years of history, has become an international example of household appliances manufacturing. Teka brand is one of the most important European manufacturers of stainless-steel sinks, built-in kitchen appliances, and bath solutions. As of today, Teka owns 15 factories and has 4.000 workers around the world, with presence in more than 120 countries in five continents.

Cook your way to life

The kitchen is the heart of your home. In Teka, we design appliances to be the soul of your kitchen. Because it is here where life happens, where some of the best moments of our lives take place.

The kitchen is more for us than just a place where meals are made. It is a place to laugh, to dream, to contribute, to talk, to make decisions, to share news, to make life plans and, in the end, a place to live unforgettable moments. For all these reasons, we design and manufacture appliances to bring solutions and real innovation to the kitchen, solutions that fit your lifestyle and are in harmony with your home. Every day we work to better understand your needs and bring new solutions to help you out by finding new possibilities in the kitchen. Our trademark, born in Germany, relies on quality, technology and innovation. Teka products are known worldwide for their reliability, efficiency and precision. Today, after almost 100 years of history, Teka keeps working exhaustively to give all of its products the best functionalities and design to reach excellence in every step. Our values, deeply rooted in our company, are clear: Honesty, Generosity and Originality.

This means we work for you and we are always by your side, helping you to solve your everyday problems with world class quality solutions. Customer satisfaction is our main concern. We have strived from our very beginning towards best quality products, the most modern and original designs, and the best innovations at a fair price.

Honesty

We are on your side

We connect with our customers, with a responsible, clear and transparent dialogue. Teka is close to you, understands your needs and enables you to discover new possibilities in your kitchen.

Generosity

We do more

We focus on the genuine and essential: our aim is to transform the functional into humans. That's why we care about providing outstanding technology, innovation and original design, at fair prices. To combine home stories with our heritage of superiors.

Originality

A relevant alternative

We awaken emotions and preference, thanks to our singular way of doing things. Our goal is to connect with people by enabling experiences that go beyond product features and innovation. For us, inspiration is the right path towards becoming our customer

Inspiring meaningful moments

A top-down photograph of a person's arms and hands, which are heavily dusted with white flour. The person is wearing a blue long-sleeved shirt and a brown apron. They are positioned over a wooden surface that is also covered in flour. To the left of the hands, there is a glass pitcher filled with a white liquid, likely milk. Below the pitcher is a wooden rolling pin. In the bottom left corner, there is a white rectangular tray containing a block of butter, with a butter knife resting on it. The overall scene suggests a baking or cooking activity.

Based on you

TEKA

We work to make your life easier,
and to design products to be the
perfect complement for your
kitchen.

As we truly believe that the kitchen is the heart of our homes and our lives, we create products to be in harmony with your lifestyle. To help you choose and know which product best suits to your style, we have created three different lifestyle product categories, to have an option that suits you perfectly. All our products are classified by these three lifestyles, to facilitate the search and comparison of products.

MAESTRO

The products of the MAESTRO range are designed for the most demanding ones. For those in love with the kitchen who want to enjoy the latest innovations, and who enjoy haute cuisine in their home. With this range, you will get the most out of your gastronomic skills, and you will have at your disposal the best options for your appliances.

If you are looking for the most powerful induction hob, the oven with more features & possibilities, or the quietest hood on the market, this is your range.

TOTAL

The TOTAL range is made for those who love to cook and do not want to give up having the best options at their fingertips.

An option designed for those who want the best results at the minimum consumption. People who care about the environment so they choose eco appliances.

EASY

The EASY range is designed for those looking for functional appliances, with good performance and at a fair price. Simple but smart solutions affordable for everyone..

Design and sophistication

TEKA

Minimalist care

TEKA

Comfort and
serenity

TEKA

Revolutionary concepts that make the way to the future

Introducing solutions that will make your life better, because they challenge the status quo bringing the best proposals to the table. Our unique and innovative products will meet your cooking skills, for you to get results you never thought possible.

Design & its principles

Following Dieter Rams idea that “great design is making something memorable and meaningful”, we want to design experiences that simplifies everything and responds to our consumers deepest desires, delivering more than pure function and utility.

This is Teka Infinity Design, an authentic style that creates unlimited experiences, turning the functional into human with a sensitive approach, creating outstanding consumer experiences and helping shape living for the better.

It's based in the essence of four principles: minimalism, daring, genuine and intuitive.

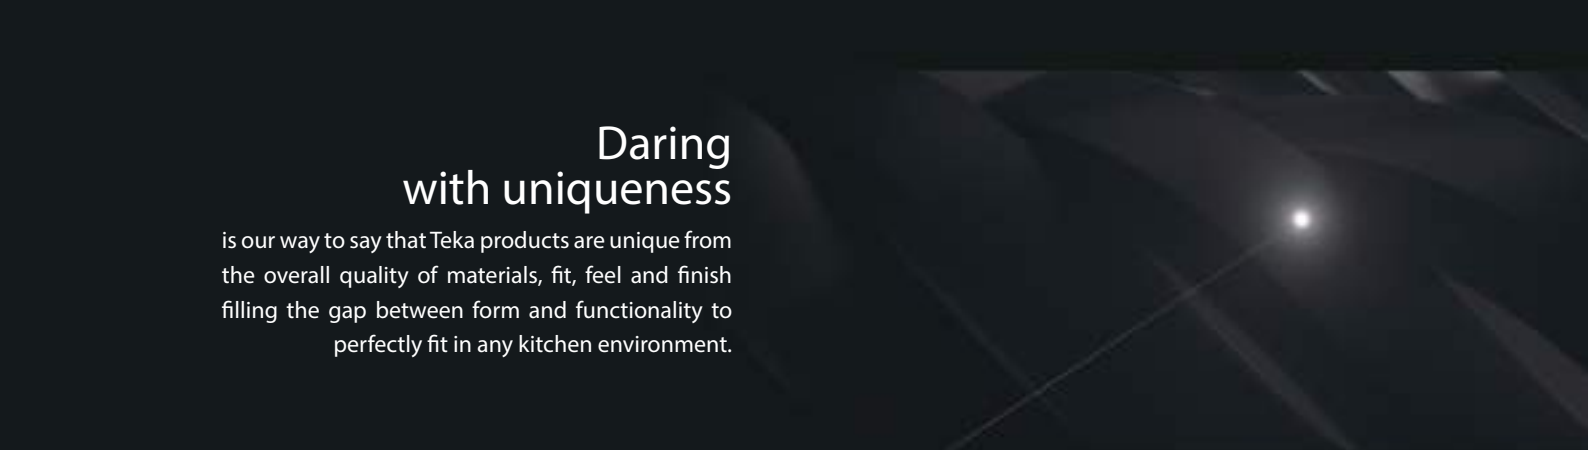

“Infinity design” is a new way to add soul to your kitchen. In that sense, our appliances have been designed to help to create the perfect environment that best fits with your life style.

Minimalism with performance

where we apply a very pure and functional design
expressing the best of the product can offer.

Daring with uniqueness

is our way to say that Teka products are unique from
the overall quality of materials, fit, feel and finish
filling the gap between form and functionality to
perfectly fit in any kitchen environment.

Genuine with attitude

gives to our design an accent touch bringing
character to our products.

Intuitive with simplicity

is our commitment to products that are simple, clear
and precise. The kitchen is becoming connected
and we want to ensure that every experience has a
sensitive and human touch.

TEKA

Art

In the same direction and as Robin Mathew (Indian designer) said, "Design is where science and art breakeven".

In Teka we want to provide the best solutions with cutting edge technology balanced with the art aspect, delivering unlimited alternatives through the Infinity Design.

As in design, art is made to provoke emotions and thoughts. Our vision is to inspire people bringing art to the kitchen adding more emotion in everyday life.

We believe that in the kitchen is where life really happens. Why not add art in this environment?

Teka wants to bring out your inner artist, and through its products spread art into the kitchens.

Eating is a necessity, but cooking is an art.

Where cooking meets art

We are passionate about architecture, design and art.
That is why we collaborate with different associations and institutions to support art and design.

THYSSEN-BORNEMISZA
MUSEO NACIONAL

Teka sponsors the gastronomic tour of the Thyssen-Bornemisza National Museum in Madrid, made up of 17 masterpieces from the 15th to the 20th century, representing gastronomy as a source of pleasure and emotion.

This tour helps us to understand the meaning and history behind these works.

MUSEO
MODERNO

Teka is present as a sponsor in one of the main Modern Art museums in Latin America, the MAMBA.

During the years of 2019 and 2020, Teka has sponsored different modern art exhibitions, by artists such as Sergio De Loof, Alberto Greo or Lea Lublin.

MEAM
Museu Europeu d'Art Modern

Located in the Born district in Barcelona, the European Museum of Modern Art is an architectural gem located in the Gomis Palace and has more than 230 masterpieces of contemporary art.

Teka, as main sponsor of the museum, collaborates in the cultural dissemination that it carries out through various activities, among which are art exhibitions, shows, workshops or concerts.

TEKA

Welcome to the
INFINITY ∞ DESIGN

INFINITY DESIGN

The kitchen is the living center of all houses. Almost everything that matters to us happens in the kitchen. Laughter, Conversations, Desire, Decisions, Dreams, Propositions, Destiny itself.

The kitchen goes beyond just preparing food. It's where small things become essential. That is why Teka wants to be the enabler of unlimited moments that make life worth living, making your kitchen your favorite place in your home.

In this context, Teka has created "Infinity design", a new modern, authentic, and stylish concept of design to inspire unlimited experiences.

RESTAURANT QUALITY AT HOME

WORLDWIDE NOVELTY

SteakMaster oven

WELCOME MEAT LOVERS

All you need to get the perfect steak

Discover SteakMaster, the first and only oven that gives you a restaurant-quality steak at home. Thanks to the innovative and exclusive technology developed by Teka alongside Michellin Chefs, that guarantees the best results in each preparation. Welcome, steak lovers.

High temperatures that reach up to 700°C, along with the cast iron grid will give your meat cuts a unique grill flavour in just a few minutes.

Choose to cook manually to manage every step and how you would like your steak cooked, or simply select one of its 20 automatic programs: SteakMaster is designed to temper the meat, keep it juicy, and seal the cut, recreating the heat process of a professional grill.

Additionally, the SteakMaster is a pyrolytic multifunction oven capable of cooking all the recipes you want.

Temperature

Grill that reaches up to 700°C for a perfect finish.

TEKA

Microwaves

The kitchen is where family
memories are homemade

SPECIAL TECHNOLOGY

Cooking meals to share was never so fast and easy

Ceramic base

Don't get another hot-but-cold dish thanks to our homogeneous heat system. Waves distribution comes from the lower ceramic base with no need to use turntable plates.

Our microwaves have wide cooking surfaces to use bigger plates, and a completely flat cavity, easier to clean and to reach any part of it where food stains may remain. Great efficiency comes included too.

Crunch plate

You can do a potato omelette without turning it upside down. Cook a quiche or even do some crunchy French fries. You can have crispy pizzas thanks to the plate, reaching very high temperatures to turn the borders golden brown and crusty.

Memory

With our microwaves you can select different power memories and heating times so you can repeat your favourite recipes as many times as you wish.

Easy installation

Frontal trim kit is included in the microwave for an easy installation. The frame is already fixed to the microwave oven instead of the cabinet, so the assembly process is faster. Thanks to this, you can get your new microwave ready in just 5 minutes and using only 4 screws.

Design and performance to suit your life

OUR MICROWAVES RANGE WILL PROVE TO BE AN IDEAL ALLY FOR YOUR EVERYDAY COOKING NEEDS

Cooking fast and easy without saying goodbye to that unique taste of our traditional recipes.

Teka microwaves offer countless and intuitive functions with an exclusive design. Our microwaves style fits perfectly with our ovens and compacts, creating harmony in every kitchen. Make your kitchen a piece of art.

Hobs

Add some of your own magic
to each of your recipes

SPECIAL SERIES

MasterSense Series

THE HIGHEST PRECISION

The MasterSense series includes direct cooking functions with temperature sensors to guarantee perfect results on each recipe. It also has additional features, such as XXL zones, which detect the size and shape of different kitchenware and activate the heat accordingly, and Flex zones, for kitchenware of up to 40 cm.

Enjoy special features, such as SlideCooking, with this series available in different sizes and finishes, with the best design and durability, thanks to its high quality Quartzium® glass.

1000W

TEKA

We help you choose the right hood for your kitchen

OUR WIDE VARIETY OF HOODS ALLOWS YOU TO CHOOSE THE PERFECT MATCH FOR YOUR KITCHEN, DEPENDING ON YOUR NEEDS

Just calculate your kitchen's volume.

For example, 12m² with 2,5m height.

That's how we get the total volume: 12m² x 2,5m = 30m³

Furniture must be taken into consideration. Approx. 40%. Final total volume: 18m³. Considering that the air is renovated 12 times per hour:

18m³ x 12 renovations = 216m³/h

In a 12m² kitchen we need a hood with 216m³/h for an effective extraction.

TEKA HOME

WORLDWIDE NOVELTY

This hood reads your mind

WELCOME TO INTELLIGENT COOKING.

This Hood turns on automatically when you start cooking and regulates the power.

Remote control

Turn on and control your Hood from your mobile phone.

Always know what is going on

Access all the information on your Hood from wherever you want.

Teka Home App

Discover all the different features on the Teka Home App.

Cold Line

Meals and memories are kept inside

Fresh veggies for loving meals

AND THIS WHILE YOU GIVE YOUR KITCHEN
A WELL-DESERVED STYLISH TOUCH.

Keeping your food fresh for longer is a necessity. Our Cold Line range offers a high performing and stylish way to do it, where design is key, but not at the cost of efficiency and long-lasting functioning.

Discover our many Cold Line solutions for your kitchen.

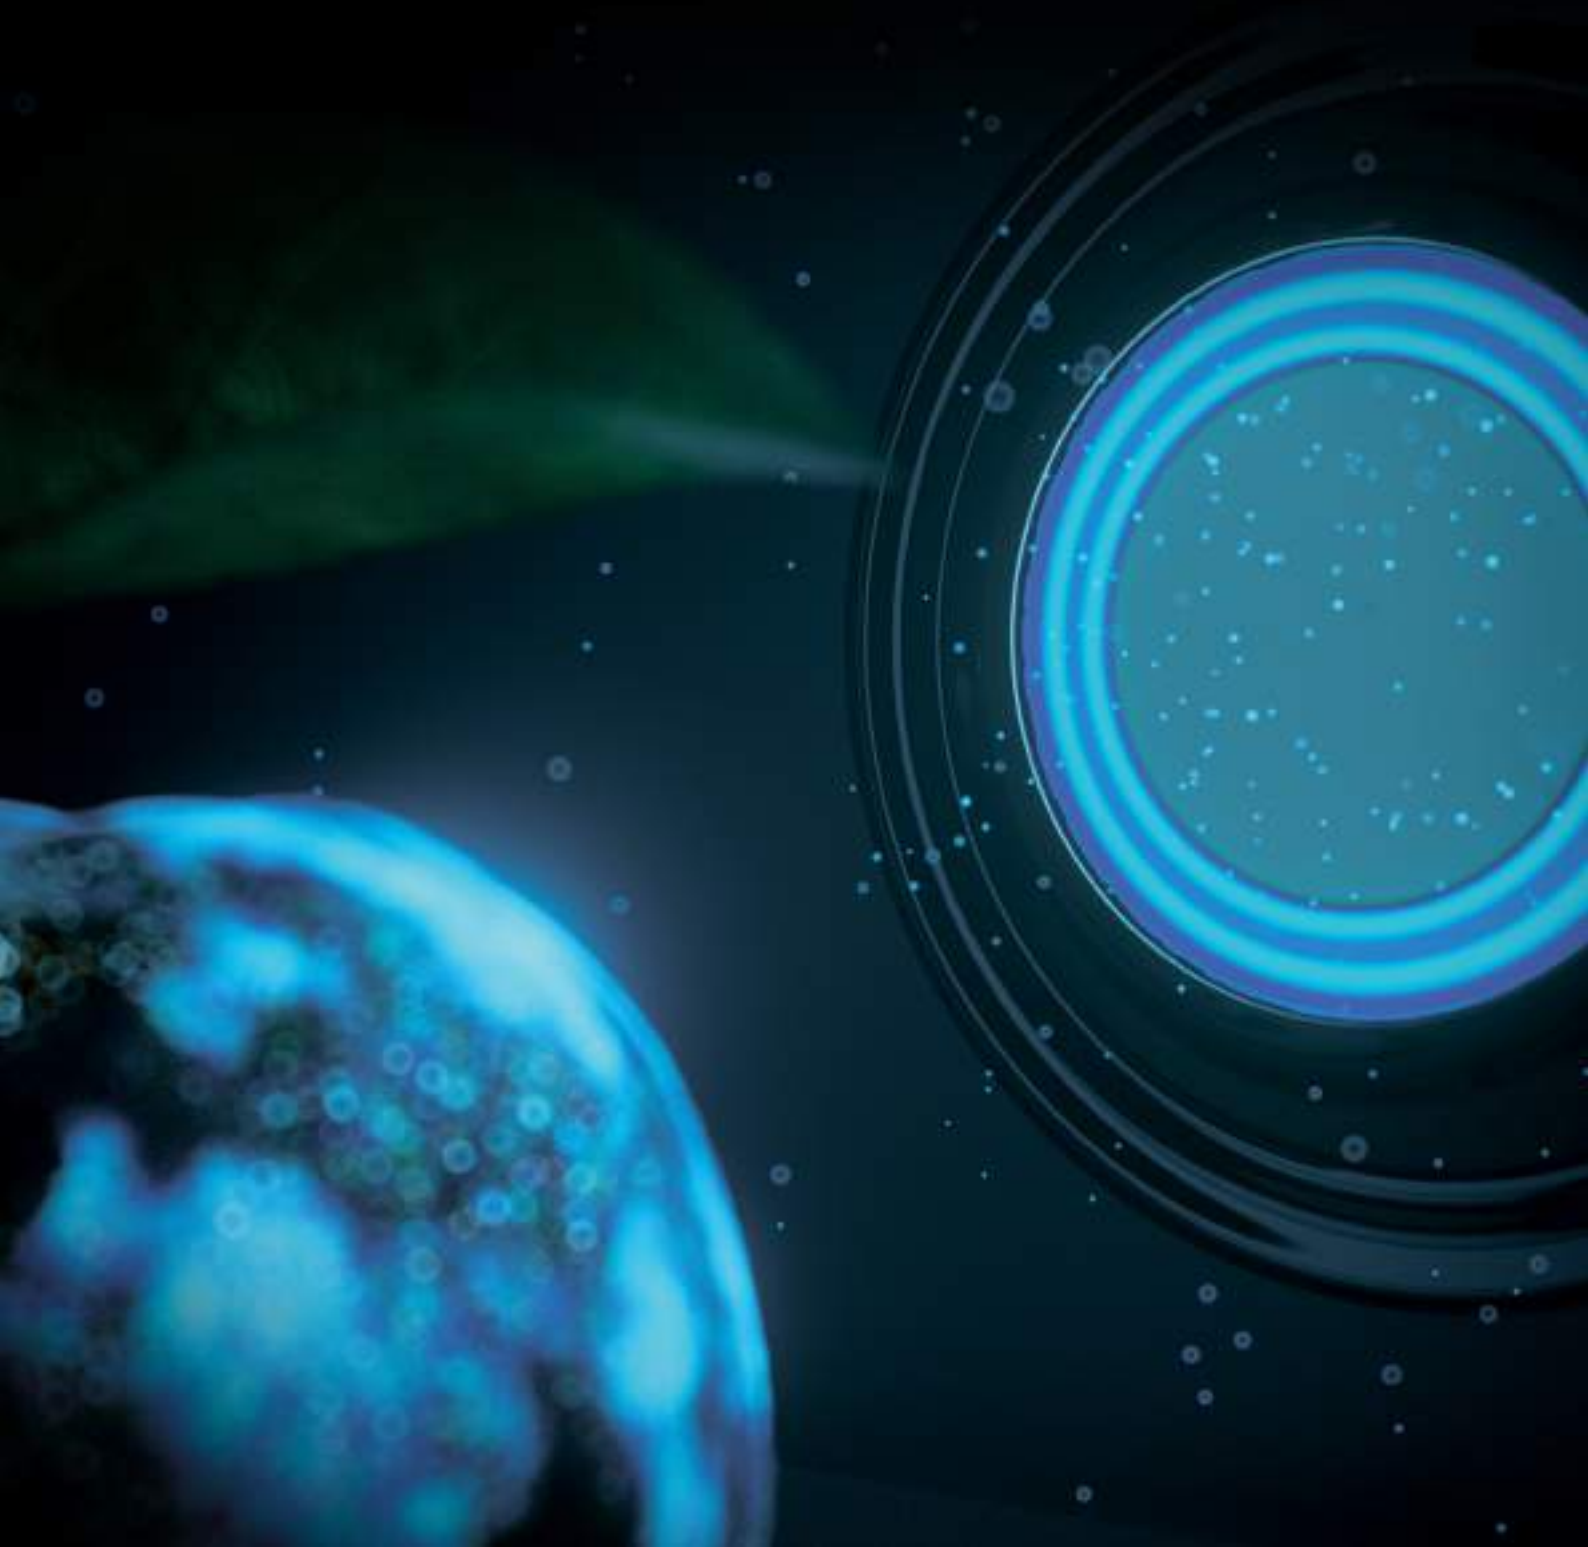

SCAN AND
DISCOVER

SPECIAL TECHNOLOGY

Freshness and convenience in complete harmony

IonClean technology

IonClean technology creates negative ions that neutralise bacteria and bad smell particles. Air inside the fridge will be superb this way and always fresh and free of odours.

TempGuard

Our TempGuard system controls and keeps the temperature thanks to sensors located inside. Any change is automatically fixed. Your fridge always at the real temperature your food needs.

MultiZone compartment: From freezer to fridge in just one touch

Enough room to keep food cold or even freeze it, thanks to the compartment with adjustable temperature: from cold to frozen. You can set the temperature you want to from -18°C to 7°C and have a complete control of your food and appliance.

LongLife No Frost

Keep your food perfect: goal achieved. LongLife No Frost technology keeps every compartment at the perfect moisture level thanks to the three independent cooling circuits. Your food remains fresh for longer.

FlexiRack

Adjust the height of the door shelf by just pressing a side button.

GourmetBox

Precision is to keep food at perfect temperature.

Your food remains fresh for longer at the right temperature. The latest technology of the 0°C box. Gourmet Box, a soft close telescopic drawer, allows you to choose the right temperature between -2 and 3°C through a touching display at the top. Welcome to wellness.

VitaCare Box

From farm to table VitaCareBox drawer has a personalised moisture control to keep your fruit and vegetables always fresh, preserving all their vitamins and nutrients for longer.

Bar on Door

Take drinks without opening the door with just one touch. Easy access to a special compartment for drinks avoiding opening the whole refrigerator. The BarOnDoor goes beyond an intelligent design, its simplicity at its best.

10 years Warranty Inverter Motor

Silence, durability and efficiency.

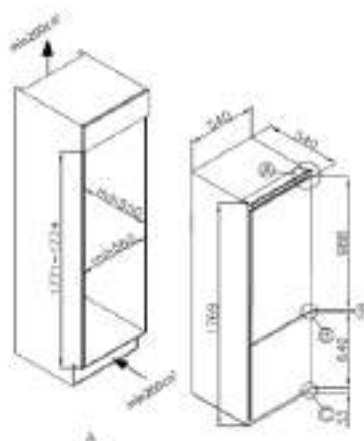

Feel the peace at home. Less consumption and more silence with the long-lasting inverter compressor. We take care of stillness and quietness at your home, while saving you money. Our refrigerators and freezers ranges are designed based on efficiency. Save more with the most advanced technology.

Dishwashers

Caring for your loved ones
through pure hygiene

Clever technology for the finest hygiene

SmartSensor

This innovative system identifies through sensors the dirtiness level of your kitchenware and adjusts the washing parameters based on this. Optimal results in each cycle.

MultiCleaner

Use any kind of detergent you like, pods or powder, as your Dishwasher will adapt to either with the MultiCleaner system.

PremiumDry

A perfect finishing is achieved thanks to an excellent performance with minimum consumption. At the end of each cycle, the PremiumDry system will automatically open the Dishwasher door to complete the dishes drying process.

3rd Cutlery Tray

Your cutlery perfectly clean and with no food traces, thanks to our new wider and more flexible tray. Move and set its mobile parts to adjust to your needs in every cycle.

Beam on Floor

Our Dishwasher are so silent, that we have included a beam of light*, so that you can identify when it is working. When the light beam is off, it means your Dishwasher is done with your dishes.

* Depending on the model.

Delivering technology to keep you safe

IonClean technology

Our IonClean technology* guarantees the highest hygiene through negative ions, eliminating bacteria and neutralizing the common odours.

Hygiene program

Sterilise your dishes with our Hygiene program*. Eliminate all kinds of bacteria and allergens, thanks to the high temperature of this special program.

Inverter Motor

Last generation inverter motor*. Its technology and resistance guarantee minimum energy consumption, a significant noise decrease, and long-lasting performance.

* Depending on the model.

Laundry

The scent and softness of clean clothes
reminds us of the best stages of life

SPECIAL TECHNOLOGY

The best care for your clothes

A product range designed to care for your clothes and those of your loved ones.

Feel the soft and smooth touch of your clothes on the skin and enjoy the fresh smell of your laundry. Teka laundry range takes the best care of your clothes and brings a unique aroma to your whole home. The smell of freshness you can still remember from every Sunday morning when you were a child. The feeling of wearing brand new clothes that were just washed for the very first time and made you feel better, protected and comfortable to face a new day. Imagine getting such a feeling every time you do your laundry.

SPECIAL TECHNOLOGY

Hygienic and sterilized clothes

Take advantage of programs and functions especially designed to provide the highest hygiene and sterilization, while caring for your clothes. Eliminate 99.9% of bacteria and allergens.

Antiallergies program

The Antiallergies program is perfect to eliminate dirt and lower the risk of allergic reactions. Reduce any allergen that may be present in your cloth from pollen, mites, fungi or animal fur.

With the Allergy UK Seal of Approval, we certificate the elimination of 99.9% of allergens, the main cause for skin allergies.

Steam function

An extra blow of hygiene. The steam eliminates germs, viruses and bacteria, and permits a fluffier laundry result with fewer wrinkles.

Stain type function

Every stain requires special care. Eliminate several types of common stains, such as those from coffee, sweat or oil. Your clothes as clean as the first day.

SoftCare drum

The easiest way to break water resistance. The innovating Softcare design of the drum, made of dozens of small cubes, improves the gentle care of your laundry during washing, drying and spinning, even caring for your most delicate wool clothes.

ECO3PLUS TECHNOLOGY

SPECIAL TECHNOLOGY

Always the highest performance

Our new models have been designed with the latest laundry technology, taking complete advantage of its functionality to achieve the most efficient wash.

WASHING MACHINES

T-inverter motor

More efficiency and durability, with noise levels of only 50 dBs.

Smartwash

Ensure the minimum consumption with our smart system, which adjusts the washing parameters to the load.

SprayWash system

Better washing performance with the extra upper water outlet with detergent from the top of the washing machine, for a perfect recirculation system.

DRYERS

ExcellentDry sensor

Delicate care for your clothes. Sensors control temperature and humidity to guarantee a perfectly dry result.

4DFilter

A 4 layer filter designed to catch fluff and remains, with an easy access for a deep cleaning.

SPECIAL TECHNOLOGY

A day with savings, is a day with joy

SAVE TIME

High speed programs and features, for you to save your time for the really important things.

MyCycle

Choose your favourite program, type of clothes, temperature, speed, and more. Your washing machine will memorize your parameters for whenever you need them, designed just for you.

WASHING MACHINES

Super fast: 12-minute program

A light wash in only 12 minutes for those in a hurry.

SpeedWash function

Booster function to reduce the programs' washing times.

WASHER DRYERS

Wash&Dry 29 minutes

Wash and dry your clothes in only 29 minutes.

DRYERS

Shirts 12 minutes

Get them dry in record time.

SAVE ENERGY

Stay sustainable while giving up on nothing.

ECO3Plus

Our new laundry appliances incorporate several saving systems for sustainability. Last generation motors and smart solutions to drastically reduce the water and energy consumption. Our new Dryers' R290 coolant is an alternative natural solution with minimum environmental impact.

WASHING MACHINES

Live ECO system

Control and visualize the water and energy consumption of every program with the control bars on the display.
