

Almost everything that matters to **us happens** in kitchen

COLD LINE

# The kitchen is the **heart** of a home

Cooking for family and friends, a table talk after a long working day, and afternoon snack with the kids. That's how I take care of my beloved ones, putting together good times with delicious food, in the best and cosy environment. Some kitchens are so special that turns moments into unforgettable memories.

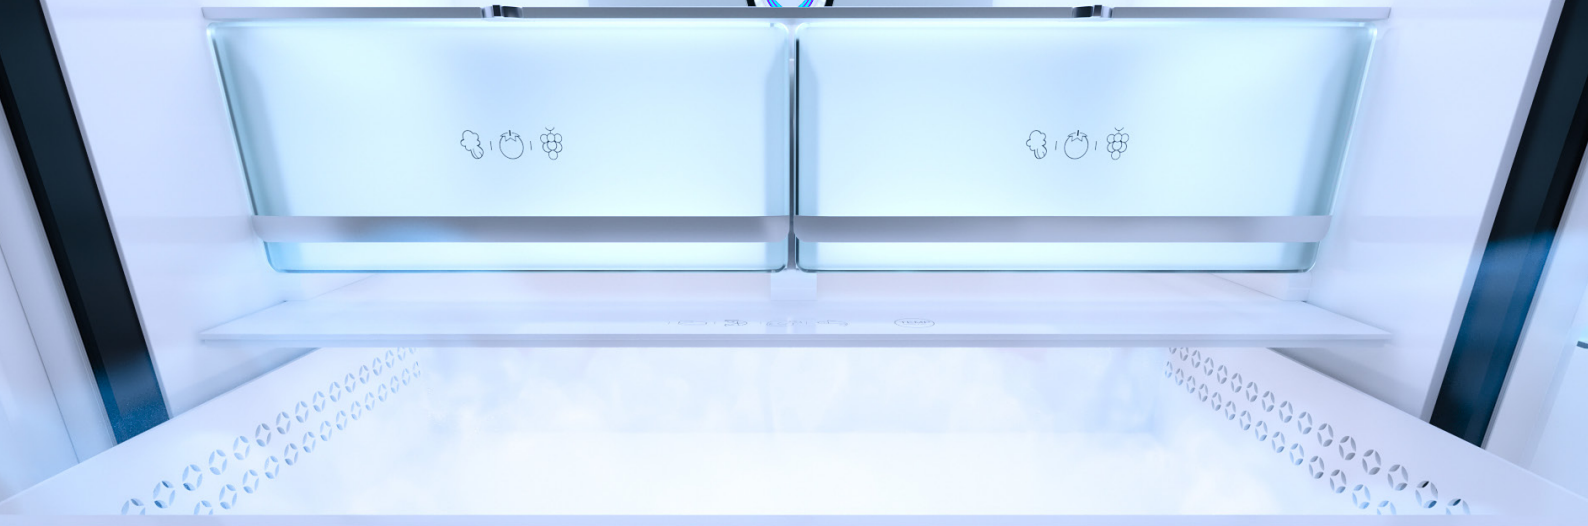

## ***Connect with your kitchen through design***

A remarkable appearance French Door design. It takes care of all the details including a touch control display with white LED illumination, the perfect combination with the unique and exclusive black glass finish.

## ***LongLife No Frost***

Keep your food perfect: goal achieved. LongLife No Frost technology keeps every compartment at the perfect moisture level thanks to the three independent cooling circuits. Your food remains fresh for longer.

## Gourmet Box

*Precision is to keep food at perfect temperature*

Your food remains fresh for longer at the perfect temperature. The latest technology of the 0°C box. Gourmet Box, a soft close telescopic drawer, allows you to choose the right temperature between -2 and 3°C through a touching display at the top. Welcome to wellness.

## IonClean Technology

IonClean technology create negative ions that neutralise bacteria and bad smell particles. Air inside the fridge will be superb this way and always fresh and free of odours.

## Motor inverter

*Silence, durability and efficiency*

Feel the peace at home. Less consumption and more silence with the inverter compressor. This motor produces less friction and it has a lower energy consumption, being more silence and long-lasting. Want to take care of stillness and quietness at your home, but we also want to save you money. Our refrigerators and freezers range is designed thinking about efficiency. Save more with the most advanced technology.

## TempGuard

TempGuard Radar system controls and keeps the temperature thanks to sensors located inside. Any change is automatically fixed. Your fridge always at the real temperature your food needs.

## VitaCare Box

From farm to table VitaCareBox drawer has a personalised moisture control to keep your fruit and vegetables always fresh, preserving all their vitamins and nutrients for longer.

## From freezer to fridge in just one touch

Room enough to keep food cold or even freeze it, thanks to the compartment with adjustable temperature: from cold to frozen. You can set the temperature you want to from  $-18^{\circ}\text{C}$  to  $7^{\circ}\text{C}$  and have a complete control of your food and appliance. At your service.

## Complete flexibility to store your food

With the flexirack system, just pressing a side button, you can adjust the height of the door shelf anytime you need it!

## Just on Touch away from your refreshing drink

Take drinks without opening the door with just one touch. Easy access to a special compartment for drinks avoiding open the whole refrigerator. The BarOnDoor goes beyond an intelligent design, thereby saving energy.

*Feel the comfort saving money*

## MAESTRO

Domestic appliances for those who like going one step further. For those who will not settle for being like the rest.

## TOTAL

Designed for those who demand everything of their appliances, for everyone in the house. Maximum effectiveness in any situation.

## EASY

For those who prefer no complications in the kitchen without denying themselves an appliance that gives so much while asking for so little in return.
