

The kitchen is
where life happens

OVENS

Sharing **emotions**, meals and meaningful moments

Cooking never was so easy. Top quality for top chefs at home. Prepare recipes for the most demanding ones with our ovens. Choose among a wide range of features that will please any gourmet. Cook many international dishes surrounded by precision and efficiency. We work for you to develop the best cooking experience for your loved ones, to create the perfect atmosphere where you can create the most delicious dishes optimizing your time and energy.

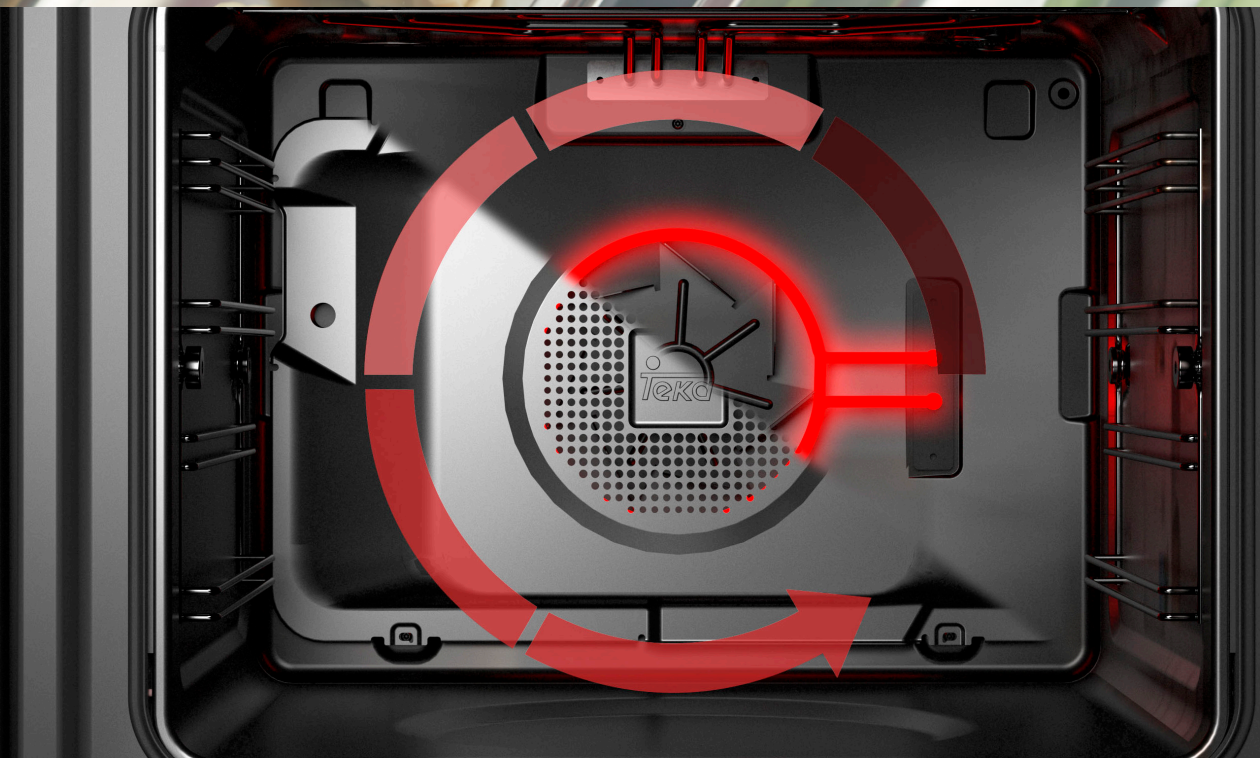

Innovations **thinking of you**

iOven

Best results with just one touch

Find the right recipe from Monday to Sunday choosing among the 50 international recipes preset in a full colour screen design for your convenience. Watch pictures of every dish thanks to this innovating system and select what really suits your needs in that precisely moment with just the tip of your fingers.

MultiCook

Eat healthy without giving up tasty food

Multicook tray turns your oven in a steam one. Your food will keep all nutrients, vitamins and minerals without any oil, preserving flavour, texture and original aroma. With a wide range of accessories feel free to cook juicy food on individual trays or big pieces of meat on the grid. You can cook with water or even wine for a tasty touch but always with the healthiest results.

SurroundTemp

Uniform cooking

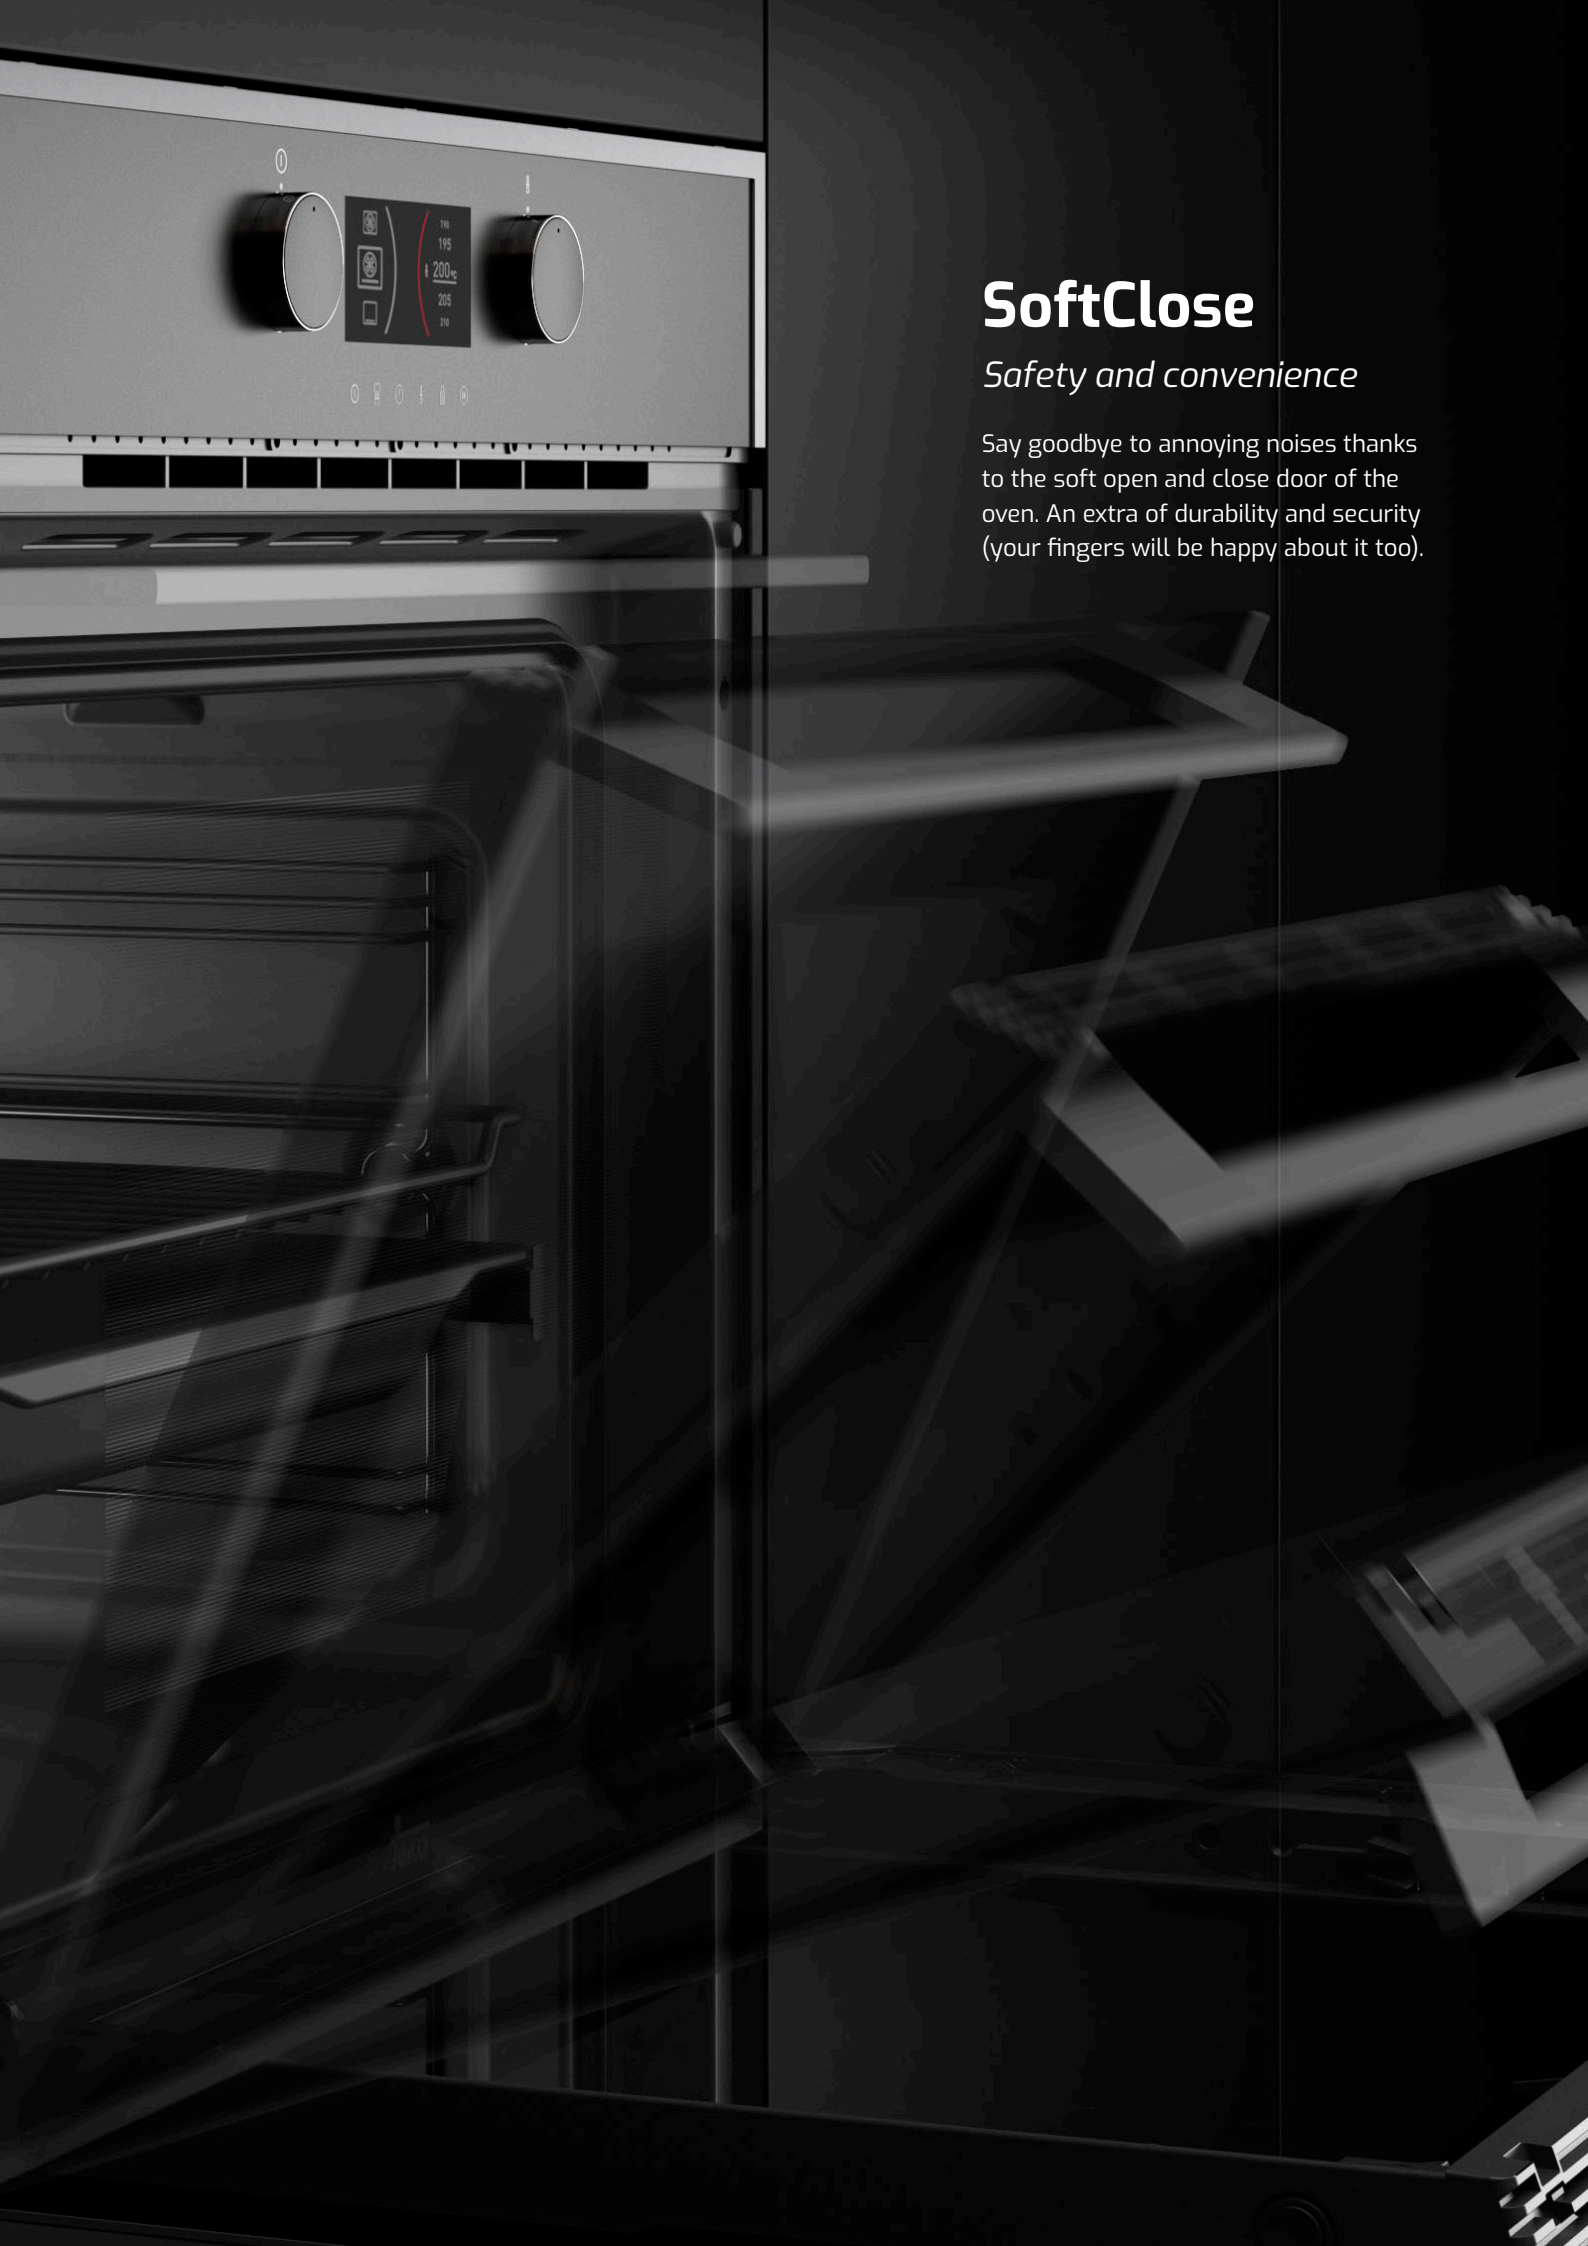

Smell of fresh baked cookies, everyone of them crunchy and baked right as it should. Multifunction SurroundTemp ovens guarantee an evenly distribution of the heat, even cooking at different levels. Get a surrounding heat effect in your dishes with the extra back resistance.

MeatProbe

Well-done recipes

Precise cooking point from the inside of every piece of food. You will get the right texture you are looking for in your dishes through a complete control of the cooking temperature, so you can easily get the most of your recipes. Perfect for meat, poultry and fish.

SoftClose

Safety and convenience

Say goodbye to annoying noises thanks to the soft open and close door of the oven. An extra of durability and security (your fingers will be happy about it too).

DualClean

Find more time for incredible moments

Pyrolysis or steam cleaning. Teka DualClean models have everything you need to clean your oven. For a daily routine, Hydroclean system, a helping hand for a fast and efficient cleaning with minimum energy consumption. If your last Sunday family meal with a roast beef was a success and you do need a deep cleaning, you can choose among three different pyrolysis levels. Reduce to ashes the dirt in your oven with just one touch. Cleaning an oven never was so easy.

Pyrolysis

The oven heats up to a very high temperature (almost 500°C), leaving only a thin layer of ash that can be easily wiped with a cloth once the oven is cooled. Forget about spending time with unhealthy products to keep the oven clean and ready for every use.

Hydroclean

When the water reaches high temperatures (steam), softens the grease adhered to the walls of the oven, and when it cools down allows to clean the oven easily, without effort. 90°C + 4 min heating + 20' cooling down
PRO: Automatic function ECO: Manual function

A+ Energy Class

Minimum consumption cooking

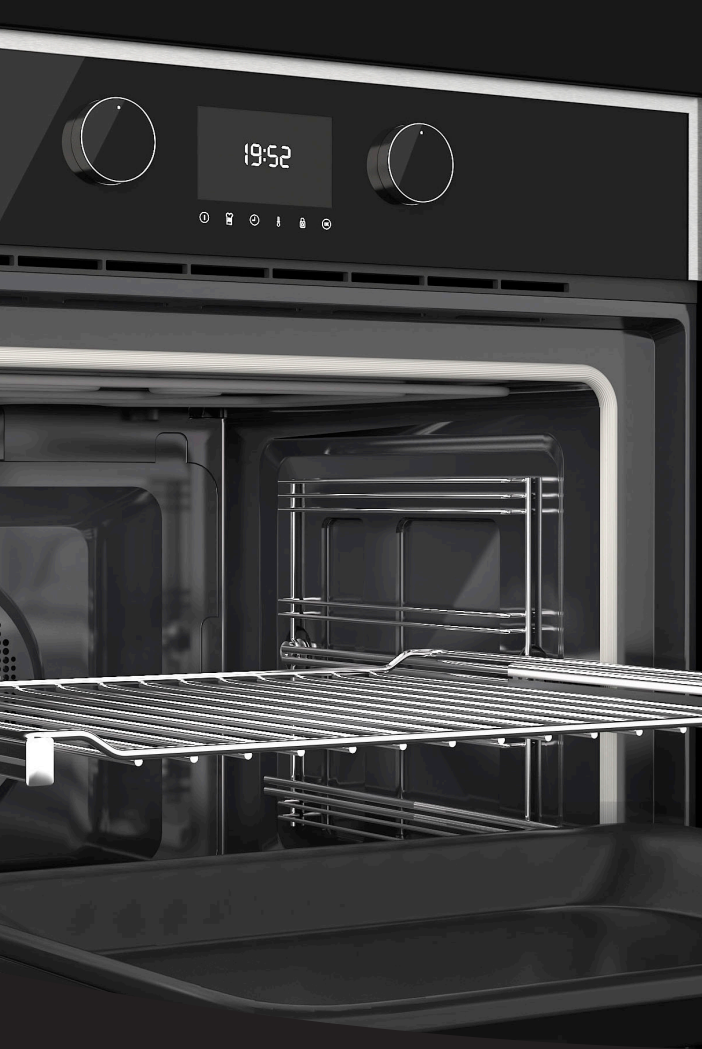

We take care of your recipes to be perfect but also wants you to save energy and money. A+ energy rating with an energy saving up to 20% compared with A class. May all your wishes come true.

Cool Touch System®

Greatest safety in your kitchen

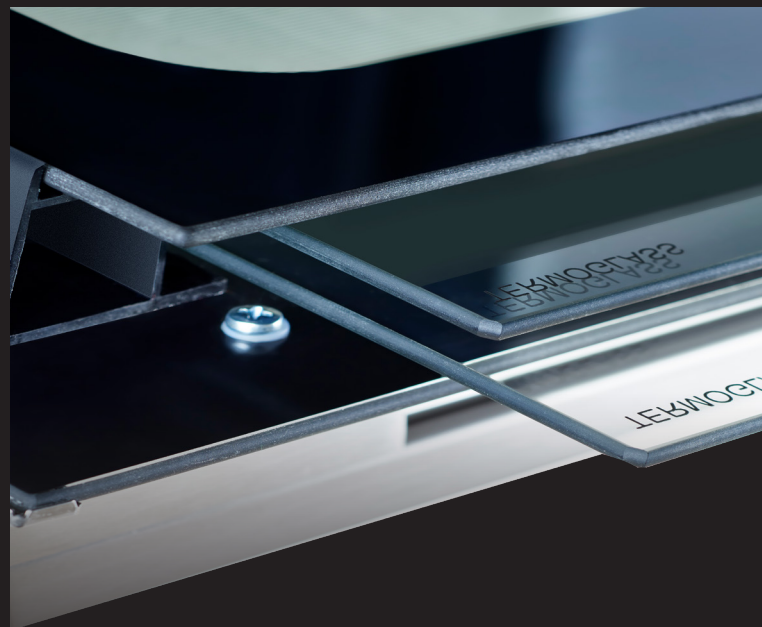

Full glass door with up to 4 glass panels to keep the outside temperature to a minimum. You can even touch the door because Teka goes beyond the legal requirement with lower temperatures.

Full Extension Telescopic Guide

Feel the comfort at home

More robust and smoother running. Full precision and total extraction with the new telescopic guides, 100% of the tray is extracted make easier the recipe access. The clip-on system.

EasyClean system

One of our goals is safety and our ovens can have up to 4 glasses on the door (CoolTouch system). And yes, we also can figure out how hard can be to clean a grease stain in the third glass. So we have created an easy

access system. Just push the side of the door panel and you will find the way into each glass for a complete cleaning.
