OVENS

# Sharing **emotions,** meals and meaningful moments

Cooking never was so easy. Top quality for top chefs at home. Prepare recipes for the most demanding ones with our ovens. Choose among a wide range of features that will please any gourmet. Cook many international dishes surrounded by precision and efficiency. We work for you to develop the best cooking experience for your loved ones, to create the perfect atmosphere where you can create the most delicious dishes optimizing your time and energy.

# Innovations **thinking of you**

## iOven

*Best results with just one touch*

Find the right recipe from Monday to Sunday choosing among the 50 international recipes preset in a full colour screen design for your convenience. Watch pictures of every dish thanks to this innovating system and select what really suits your needs in that precisely moment with just the tip of your fingers.

# MultiCook

*Eat healthy without giving up  tasty food*

Multicook tray turns your oven in a steam one. Your food will keep all nutrients, vitamins and minerals without any oil, preserving flavour, texture and original aroma. With a wide range of accessories feel free to cook juicy food on individual trays or big pieces of meat on the grid. You can cook with water or even wine for a tasty touch but always with the healthiest results.

# SurroundTemp

*Uniform cooking*

Smell of fresh baked cookies, everyone of them crunchy and baked right as it should. Multifunction SurroundTemp ovens guarantee an evenly distribution of the heat, even cooking at different levels. Get a surrounding heat effect in your dishes with the extra back resistance.

# MeatProbe

*Well-done recipes*

Precise cooking point from the inside of every piece of food. You will get the right texture you are looking for in your dishes through a complete control of the cooking temperature, so you can easily get the most of your recipes. Perfect for meat, poultry and fish.

# SoftClose

*Safety and convenience*

Say goodbye to annoying noises thanks to the soft open and close door of the oven. An extra of durability and security (your fingers will be happy about it too).

# DualClean

*Find more time for incredible moments*

Pyrolysis or steam cleaning. Teka DualClean models have everything you need to clean your oven. For a daily routine, Hydroclean system, a helping hand for a fast and efficient cleaning with minimum energy consumption. If your last Sunday family meal with a roast beef was a success and you do need a deep cleaning, you can choose among three different pyrolysis levels. Reduce to ashes the dirt in your oven with just one touch. Cleaning an oven never was so easy.

## Pyrolysis

The oven heats up to a very high temperature (almost 500ºC), leaving only a thin layer of ash that can be easily wiped with a cloth once the oven is cooled. Forget about spending time with unhealthy products to keep the oven clean and ready for every use.

## Hydroclean

When the water reaches high temperatures (steam), softens the grease adhered to the walls of the oven, and when it cools down allows to clean the oven easily, without effort. 90ºc + 4 mint heating + 20' cooling down PRO: Automatic function ECO: Manual function

# A+ Energy Class

*Minimum consumption cooking*

We take care of your recipes to be perfect but also wants you to save energy and money. A+ energy rating with an energy saving up to 20% compared with A class. May all your wishes come true.

# Full Extension Telescopic Guide

*Feel the comfort at home*

More robust and smoother running. Full precision and total extraction with the new telescopic guides, 100% of the tray is extracted make easier the recipe access. The clip-on system.

# Cool Touch System®

*Greatest safety in your kitchen*

Full glass door with up to 4 glass panels to keep the outside temperature to a minimum. You can even touch the door because Teka goes beyond the legal requirement with lower temperatures.

# EasyClean system

One of our goals is safety and our ovens can have up to 4 glasses on the door (CoolTouch system). And yes, we also can figure out how hard can be to clean a grease stain in the third glass. So we have created an easy access system. Just push the side of the door panel and you will find the way into each glass for a complete cleaning.

MICROWAVES

# Creating unforgettable moments is **easier and faster than ever**

### *Easy installation*

Frontal trim kit is included in the microwave for an Easy installation. The frame is already fixed to the microwave oven instead of the cabinet, so the assembly process is faster and we can get our new microwave ready in just 5 minutes and using 4 screws.

### *Memorize your favourite recipes*

With Teka microwave ovens you can select different power memories and heating times so you can repeat your favourite recipes as many times as you wish.

## Ceramic base

*No boundaries in your kitchen*

Your cooking will never have boundaries again. Teka microwaves bring you wide cooking surfaces to use bigger plates. You won't have to get another hot-but-cold dish again from the microwave thanks to our homogeneous heat system. Waves distribution comes from the lower ceramic part of the appliance and there is no need to use turntable plates. Microwave is completely flat inside so it is easier to clean and to reach any part of it where food stains may remain. We have as well an excellent efficiency.

## Crunch plate

*Real crispy microwave pizza*

Crunch plate will give us the chance to cook easy and fast. You can do a potato omelette without turn it upside down, cook a quiche or even do some crunchy French fries. You can even have crispy pizzas thanks to the plate, reaching very high temperatures to turn the borders golden brown and crusty.

HOODS

# Find out what innovation can make you **feel**

*Our goal is to create the best environment for you at home. Our hoods will preserve freshness, silence and harmony for your recipes in every corner of your kitchen saving money at the same time.*

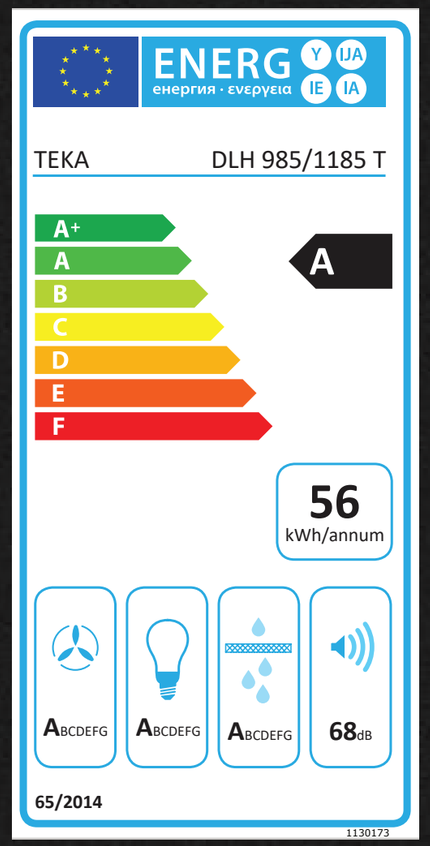
Feel the peace and quietness in your kitchen too. Feel the satisfaction of sharing amazing moments there, with the pleasure of an amazing design and the essence of your home. The hood is not just a noisy part of your kitchen, but something that keeps the atmosphere clean and fresh, creating harmony and a peaceful environment to cook or to share a piece of cake. Design is a priority with our hoods, that is why Teka creates exclusive and functional designs that goes along with the look of the rest of the appliances.

## Quadro

*Feel the quiteness in your kitchen*

Quadro hood shows an unique vertical design to impress even the most demanding chefs. The hood is made of black glass and anodized aluminium with high durability. The perfect combination also has a white display and an elegant LED lighting distributed all along the cooking area. Because your expectations deserves only the best.

*New hoods made thinking of you and your future. Available in any kind of shape and size, eco-friendly but easy on your wallet, these hoods fits in your kitchen and in your life.*



# PERFECTA-4

The perfect balance between efficiency, design and productivity. An incomparable hood thanks to a full 4 A energy label: A class in energy efficiency, fluidynamic, lightning and also in grease filtering. The hood can extract up to 800 m3 and remove 98% of the grease with its 12 layers filters. And from the hood to the dishwasher, because the stainless steel filters are designed to be washable, so forget about how to keep them clean.

### A Energy efficiency

Energy efficiency index (EEI) It is calculated from annual consumption and from energy standard consumption.

### A Fluid Dynamic Efficiency

Efficiency of the extraction system, affected by different variables like the shape of the hoods.

### A Lighting efficiency class

Indicates the efficiency with which the hood is able to illuminate the cooker hob.

### A Grease filtering efficiency class

Indicates the efficiency with which the hood filters grease generated through cooking process.

## LED light bar

Led light has a very positive effect for the environment. It is called the ecologic lighting due to the lack of mercury or any other hazardous substances that can contribute to the greenhouse effect and increase global warming. LED had other many advantages as low energy consumption, so we can save energy, or the fact that they don't need a warm-up period and they don't produce heat. But LED bar will perfectly light you cooking zone so you can not miss a single thing of your recipes.

## What hood does my kitchen need?

Just calculate your kitchen's volume. For example $12m^2$ with 2,5m height. That's how we get the total volume:
**$12m^2$ x 2,5m = $30m^3$**

Furniture has to be taken into consideration. Approx. 40%. Final total volume: $18m^3$ On the basis of the air is renovated 12 times per hour:
**$18m^3$ x 12 renovations = $216m^3/h$**

*In a $12m^2$ kitchen we need a hood with $216m^3/h$ for an effective extraction*

## All sizes and shapes for every taste and need

Round and rectangular shapes, with glass or steel finish and with infinite benefits. And everything with an emblematic design to create the environment you are looking for in your kitchen.

COLD LINE

# The kitchen is the **heart** of a home

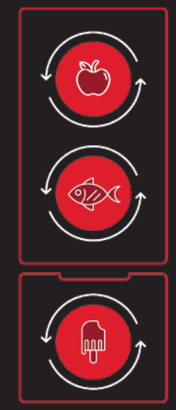
Cooking for family and friends, a table talk after a long working day, and afternoon snack with the kids. That's how I take care of my beloved ones, putting together good times with delicious food, in the best and cosy environment. Some kitchens are so special that turns moments into unforgettable memories.

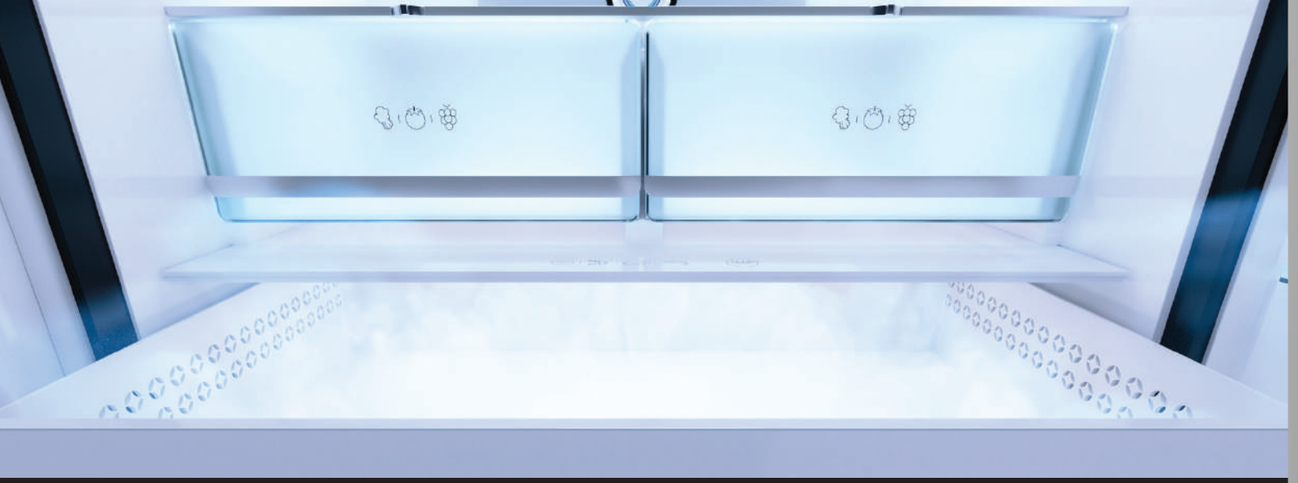
### *Connect with your kitchen through design*

A remarkable appearance French Door design. It takes care of all the details including a touch control display with white LED illumination, the perfect combination with the unique and exclusive black glass finish.

### *LongLife No Frost*

Keep your food perfect: goal achieved. LongLife No Frost technology keeps every compartment at the perfect moisture level thanks to the three independent cooling circuits. Your food remains fresh for longer.





## Gourmet Box

*Precision is to keep food at perfect temperature*

Your food remains fresh for longer at the perfect temperature. The latest technology of the 0ºC box. Gourmet Box, a soft close telescopic drawer, allows you to choose the right temperature between -2 and 3ºC through a touching display at the top. Welcome to wellness.

## IonClean Technology

IonClean technology create negative ions that neutralise bacteria and bad smell particles. Air inside the fridge will be superb this way and always fresh and free of odours.

## Motor inverter

*Silence, durability and efficiency*

Feel the peace at home. Less consumption and more silence with the inverter compressor. This motor produces less friction and it has a lower energy consumption, being more silence and long-lasting. Want to take care of stillness and quietness at your home, but we also want to save you money. Our refrigerators and freezers range is designed thinking about efficiency. Save more with the most advanced technology.

## TempGuard

TempGuard Radar system controls and keeps the temperature thanks to sensors located inside. Any change is automatically fixed. Your fridge always at the real temperature your food needs.

## VitaCare Box

From farm to table VitaCareBox drawer has a personalised moisture control to keep your fruit and vegetables always fresh, preserving all their vitamins and nutrients for longer.

LAUNDRY

# SoftCare Drumb

The easiest way to break water resistance. Taking care of clothes in every washing, keeping the texture of your clothes and softness. The innovating Softcare design of the drum, made of dozens of small cubes, improves the gentle care wqvof your laundry during washing, drying and spinning. Woolmark certificate is an universal quality seal to demonstrate our washers keep your clothes with most of the softness, even after many washings. Feel the freedom of washing your most delicate wool clothes.

# More capacity

For those who needs more than ordinary capacity, like big families, large clothes, curtains or rugs. Teka has a wide range of washing machines ready for you. The new washer and dryer can wash 10 kg. and the dry up to 7 kg. Everything in just one appliance with many features, designed to bring harmony to your home.

# A+++

Consumption and a lot to offer. New Inverter engines generation have less vibrations and noise and have improved durability, with an A+++ energy classification, a remarkable saving.

# My cycle

We know each people has different needs. With “my cycle” you can choose your favourite program, changing types of clothes, temperatures, speed, etc. The washing machine memorize them and it's done! Find the right program in the control display and feel like this appliance was designed just for you. Because we do know everyone is unique and deserves appliances designed just for them.

# Delay programming

We don't spend as much time at home as we would like to, so we need a little helper at houseworking. You can program Teka washers from 1 to 24 hours. Your laundry will be clean when you come back home from work or, if you have a night electricity plan, you can even program the washing machine during night to reduce consumption.

TAPS

# TekaPure®, **Purifies water in depth**

*Water free of impurities, the particles will be trapped in the filter.*

- **Eliminates up to 95% of unpleasant water taste and odour.**
- Removes the taste of chlorine and organic impurities.
- **Filter operating capacity: 5800 litres or 1 year.** Average water consumption per family of 4 people = 4.380 l/year (3 l/day per person).
- **Quick and easy replacement of the cartridge system.**
- The filter system takes up very little space under the sink, making it suitable for small spaces.
- Filter cartridge replacement available.
- **Filter with NSF sanitary certification**. System tested and Certified by NSF International according to ANSI/NSF Standard 42 for reduction of Chlorine Class I, taste and odour.

# Overcome barriers

The best place to place the sink and the kitchen tap is in front of the window, if space permits. Opening or closing the window with a high spout tap ahead, is no longer a problem. Aura AUK 983, the single-lever retractable mixer tap from Teka, allows you to hide or extract your high spout whenever necessary so that nothing stumbles in your way. Thanks to its 2 positions, Aura offers maximum flexibility in the kitchen.

# **Teka** ceramic discs

*Longer taps life*

All Teka cartridges use sintered ceramic discs with high resistance. These discs all have porous surfaces which retain grease longer, helping to achieve smoother, gentler movements which help to prolong the life of the taps. The operating gear is insulated from water giving therefore continuous lubrication.

# **Ceramic cartridge,** Greater durability

## Temperature limiter

Save the energy used to heat the water with the temperature regulator that is incorporated into the cartridge.

## Water saving

The cartridge incorporates an adjustable flow gauge to save water every time you use the mixer.

## Anti-Scalding

Forget about scalding caused by water at high temperatures. We take care of you and your loved ones.

* Not all taps have temperature and flow regulators in the cartridge.

SINKS

# **More than** just a sink

## More than 90 years of experience in the manufacturing of sinks allows us to offer the best guarantee

Teka sinks are defined by their top quality, durability, extremely resistant austenitic stainless steel, ergonomic design, functionality, hassle free installation and excellent service. They are made in Europe and all our factories have the highest quality certifications and are environmentally friendly.

## Sinks with unlimited lifetime warranty

At Teka, we are so confident in our quality standards that we offer an unlimited lifetime warranty on all of our stainless steel kitchen sink models for you to be completely at ease. Visit teka.com for more information.

## 50% less noise: maximum comfort and well-being

Is the kitchen sink one source of irritating noise that affects your family? New PureLine Teka sinks are the best in their class. They feature a design and low-noise component to make them extremely quiet. The sound-dampening pads are their best partner. They, together with their special distribution, are able to reduce water noise by 50%, when running or dripping into the sink, ensuring your comfort and convenience all day.

* Warranty only applicable for residential products. Fitting excluded. All product exchanges and returns require Teka's express approval. Tap and accessories excluded..

# **Tegranite+,** the hero of the kitchen

*Los fregaderos Tegranite+ de Teka han evolucionado creando un área de trabajo perfecta para los chefs de la casa que buscan la innovación, la practicidad y lo funcional en la cocina.*

Stone, Forsquare and Square are the new ranges for our new Tegranite+ products. They were made with high quality Quartz, a material on the rise. 80% Quartz combined with acrylic resins to obtain a hardened material very resistant to thermal shocks, impacts and dirt. In addition, it is available in a wide range of colors. Quality and color... you can choose!

- **Scratch-proof surface:** high resistance surface to high temperatures and violent shocks.
- **Color intensity:** Excellent UV resistance and long color durability. Its specific method in coloring granite-particles provides higher resistance against decoloring.
- **Hygiene:** The material is non-porous, its surface is very easy to clean and leaves no place for bacteria.
- **Food safe:** Additionally, Tegranite+ have an anti-bacterial protection enriched by silver ions which reject bacterial microorganisms.
- **Easy to clean:** Tegranite+ features an odorless and stain-resistant finish. Cleaning up couldn't be any easier or faster!
- **High-resistant packaging** to minimize breakage. The sink is suspended and fully protected inside a twin double-box, creating a safety perimeter to avoid impacts.

Teka only endorses sinks made of innovative materials, that have great durability and are easy to clean.
