TEKA

The first & Unique Oven to cook the perfect Steak

Cooking the perfect steak needs very high temperatures. The Powerful SteakGrill can reach up to 700°C and combined with the cast iron special grid you will cook a high-quality restaurant steak.

With the **SteakMaster** practice and experience is not necessary. Just choose the meat cut and the oven will do the rest. Thanks to 20 automatic programs, the oven will follow every single step, even keeping the steak at room temperature.

There is a manual control for cooking experts to use just the directions you want the oven to follow, at your service.

The iOven

Best results with just **one touch**

The ultimate technology in ovens. An exclusive design with **all the latest features:**

Cooking assistant: 50 recipes

Full touch control

MeatProbe

**Full extension
telescopic guides for
a 100% extraction**

**DualCleen cleaning system:
Pyrolytic + HydroClean**

**The Steam
Box**

A full touch control color display design creating **the most innovative control.**

Eat healthy without giving up tasty food

The SteamBox

The SteamBox turns your oven in a steam one. Your food will keep all nutrients, vitamins and minerals without any oil, preserving flavour, texture and original aroma. With a wide range of accessories feel free to cook juicy food on individual trays or big pieces of meat on the grid. You can cook with water or even wine for a tasty touch but always with the **healthiest results**.

Uniform cooking

SurroundTemp

Smell of fresh baked cookies, everyone of them crunchy and baked right as it should. Multifunction SurroundTemp ovens guarantee an evenly distribution of the heat, even cooking at different levels. Get a surrounding heat effect in your dishes with the **extra back resistance**.

Well-done recipes

MeatProbe

Precise cooking point from the inside of every piece of food. You will get the right texture you are looking for in your dishes through a complete control of the **cooking temperature**, so you can easily get the most of your recipes. Perfect for meat, poultry and fish.

Feel the comfort at home

Full Extension Telescopic Guide

More robust and smoother running. Full precision and total extraction with the new telescopic guides, 100% of the tray is extracted make easier the recipe access.

A+ Energy Class

We take care of your recipes to be perfect but also want you to save energy and money. A+ energy rating with an energy saving up to 20% compared with A class. May all your wishes come true.

Minimum consumption cooking

Find more time for **incredible** **moments**

DualClean

Pyrolysis or steam cleaning. Teka DualClean models have everything you need to clean your oven. For a daily routine, Hydroclean system, a helping hand for a fast and efficient cleaning with minimum energy consumption. If your last Sunday family meal with a roast beef was a success and you do need a deep cleaning, you can choose among three different pyrolysis levels. Reduce to ashes the dirt in your oven with just one touch. Cleaning an oven never was so easy.

Pyrolysis

The oven heats up to a very high temperature (almost 500°C), leaving only a thin layer of ash that can be easily wiped with a cloth once the oven is cooled. Forget about spending time with unhealthy products to keep the oven clean and ready for every use.

EasyClean system

One of our goals is safety and our ovens can have up to 4 glasses on the door (CoolTouch system). And yes, we also can figure out how hard can be to clean a grease stain in the third glass. So we have created an easy access system. Just push the side of the door panel and you will find the way into each glass for a complete cleaning.

HydroClean

When the water reaches high temperatures (steam), softens the grease adhered to the walls of the oven, and when it cools down allows to clean the oven easily, without effort. 90°C + 4 min heating + 20' cooling down PRO: Automatic function ECO: Manual function.

Greatest safety in your kitchen

Cool Touch System®

Full glass door with up to 4 glass panels to keep the outside temperature to a minimum. You can even touch the door because Teka goes beyond the legal requirement with lower temperatures.

Safety and convenience

SoftClose

Say goodbye to annoying noises thanks to the soft open and close door of the oven. An extra of durability and security (your fingers will be happy about it too).
