The kitchen is where small things become essential

COMPACTS
Infinite possibilities for limited space

May all your wishes come true

Smallest details are usually very important, and so it happens with Teka compacts in your kitchen. Not only because of an amazing style and design, but also thanks to their many features. Countless possibilities, infinite advantages with a compact size that is huge in performance. Teka combines smart solutions in hardly 45 centimetres. You can use it as a regular oven or a microwave, and it has temperature functions to suit all your needs as the chef you are at home.
All the functions of a regular oven in just 60 centimetres. Microwaves of 45 centimetres, coffee machines, steamers or even combi ovens with microwave features to find the best combination in your kitchen.
Coffe Machine

Coffee made to impress

Share unique moments around a cup of exquisite espresso or cappuccino. Our automatic coffee machine adds an exclusive touch of personality and refinement, while amplifying the aromas and flavours of your favourite blends. Choose among built-in capsule coffee machines or with coffee grinder. Because great conversations start with delicious coffee.

Vacuum sealer

Freshness in your food

Keep the flavour and nutrients longer. With vacuum packaging we remove air from inside to create a barrier for oxygen and humidity. Taking care of yourself feels good. Different combinations are possible with the compact range. The plate warmer in white or black glass is the perfect match for you compact oven or microwave.
## Compacts
