Teka adds soul to your kitchen

HOBS
iKnob

Feel the power of absolute control. An induction hob unique in every sense thanks to the exclusive design. Power and precision in just one control. The control of the hobs works with the removable knob with an extremely soft touch.

Satisfaction of complete control
Higher level of **precision**

**MultiSlider**

Independent and direct control of each part of the hob to reach a higher precision level. Slide your finger or press the power you need. You will never be wrong with your recipes thanks to the new touch control slider.
**DirectFunctions**

Temperature control by sensors avoids oil can reach excessively high temperatures. We take care of you through precision, thanks to the 8 intuitive functions.

- **Grilling 200°C**
  Ready to cook red meat and vegetables recipes at high temperature. Choose the best company to share your piece of art with and... bon apetit!

- **Deep Frying 180°C**
  The best program for deep frying. High precision to keep from high-temperature toxic substances. Healthy kitchen, enjoy safely your recipes.

- **Simmering 90°C**
  Perfect for your slow-cooked recipes. If you love stews and soups, this is the right program for you.

- **Melting 48°C**
  You can melt butter, chocolate or sugar with no fear of burning them.

- **Pan Frying 190°C**
  So many uses for just one program. Perfect to cook delicate food like fish, chicken, eggs and pancakes at perfect temperature.

- **Boiling 100°C**
  You can bring to boil 1 liter of water in 3 minutes. Speed and efficiency in your dishes and your kitchen.

- **Keep Warm 60°C**
  Keep your recipes warm until you serve them on the table. Nobody likes cold food, don’t you think?

- **Confit 80°C**
  The perfect temperature to create homemade confit at low and constant temperature.
Old traditional cooking with the newest technology

**ExactFlame**

Trying to guess the power of the flame is just part of the past. With ExactFlame you can easily control flame intensity with the highest precision. You can choose a range of power from 1 to 9, ready for any kind of cooking you need at any time.
Cooking **without limits**

**Full Flex DirectSense induction**

Cook with no limits thanks to its FullFlex technology using the whole cooking surface. Use your imagination and cook with recipients of any size, your recipes won’t have limits.

DirectSense control the Temperature in the by sensors avoids oil can reach excessively high temperatures. Use your imagination and cook with recipients of any size at the perfect temperature without limits.

**Space induction**

Flex area is designed to use every single corner of the cooking area with different shape pans. Perfect for grids, grill, TeppanYaki or rectangular recipients.
Flex induction with SlideCooking

Just move the pan from place to place and SlideCooking feature will do the rest. The hob automatically changes the power for maximum convenience, so you will cook over a high flame (power 9), at the front part of the hob, medium (power 5) at the centre and you will keep your dishes warm at the bottom (power 3). A giant leap for comfort cooking. The flex area is perfect for grids, TeppanYaki grill, rectangular recipients or anything you can imagine. With a unique and useful design, each pan has the right cooking zone.

Just slide & Cook
Go one step further with your recipes...

SuperZone XL
Cooking for all the family or create that big paella you were talking about with friends weeks ago come to life. With Paella zone XXL, 320mm, everybody is welcome at home to enjoy meals. Cook with big pans for great moments.

Schott
We know you choose Teka because you choose quality. That is why we work hard everyday to make that claim our life philosophy, where durability and resistance are definitely important features. We make our highest demands come true with Schott glasses, a market leader known for quality.
Find the right cooking temperature for the best results can be a challenge. Thanks to temperature sensors, we can reach a uniform and constant cooking temperature. A smart way to give you a helping hand in the kitchen.

... and become a real chef

Temperature Sensors
Inductions hobs

- Very fast
- Very easy to clean
- Direct heating
- Safety - Not burn on the surface
Vitroceramic hobs

- More cost effective
- Easy bowl detection

Gas hobs

- Traditional cooking
- Direct control
- Fast
- Glass or stainless steel surface
EX Gas hobs

Cast iron grids designed to use the whole surface. Made of iron and gathered so we can easily move recipients from one place to another. With high efficiency SABAF burners for a real energy saving up to 20% compared with traditional stoves, thanks to an impressive design.
Gas + induction
together in the same space

Take the advantages of two very different cooking technologies at the same time. Traditional mud kitchenware or the lastest pans, is up to you. Cook your traditional mud pot stews or cooking easy and fast with the induction technology.

The Best of Both Worlds
Hobs
