## Teka Group

#### Thousands of solutions. Millions of moments.

Teka Group belongs to the German Heritage B holding, being the consumption section specialist in kitchen and bath household appliances. Teka Group comprehends different worldwide leading brands, such as Teka, Küppersbusch, Intra, Mofem or Thor. The group, with more than 140 years of history, has become an international example of household appliances, kitchen sinks and sanitary manufacturing. Teka brand is one of the most important European manufacturer of stainless steel sinks, built-in kitchen appliances, and bath solutions As of today, Teka owns 15 factories and 4.000 workers around the world, with presence in more than 120 countries in five continents.

Küppersbusch

#### **The kitchen is the heart of your home.** In Teka, we design solutions to be the soul of your kitchen. Because it is here where life happens, where some of the best moments of our lives take place.

The kitchen is more for us than just a place where meals are made. It is a place to laugh, to dream, to contribute, to talk, to make decisions, to share news, to make life plans and, in the end, a place to live unforgettable moments. For all these reasons, we design and manufacture appliances, sinks and taps to bring solutions and real innovation to the kitchen, solutions that fit with your lifestyle and in harmony with your home. Every day we work to better understand your needs and bring new solutions to help you out by finding new possibilities in the kitchen. Our trademark, born in Germany, relies on quality, technology and innovation. Teka products are known worldwide for their reliability, efficiency and precision. Today, after almost 100 years of history, Teka keeps working exhaustively to give all of its products the best functionalities and design to reach excellence in every step. Our values, deeply rooted in our company, are clear: Honesty, Generosity and Originality.

This means we work for you and we are always by your side, helping you to solve your everyday problems with world class quality solutions. Customer satisfaction is our main concern. We have strived from our very beginning towards best quality products, the most modern and original designs, and the best innovations at a fair price.

# Cook your way to life

# Creating meaningful moments

#### Honesty

We are on your side

We connect with our customers, with a responsible, clear and transparent dialogue .Teka is close to you, understands your needs and enables you to discover new possibilities when in your kitchen.

#### Generosity

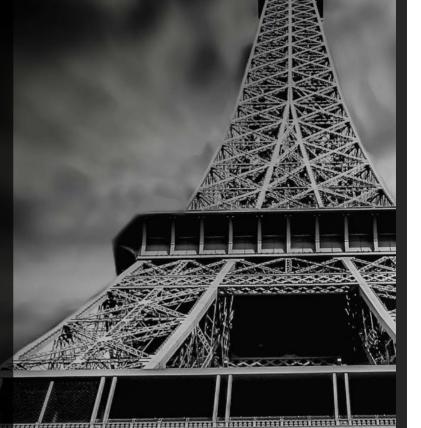

We do more

We focus on the genuine and essential: our aim is to transform the functional into humans. That's why we care about providing outstanding technology, innovation and original design, at fair prices. To combine home stories with our heritage of superiors

#### Originality

A relevant alternative

We awaken emotions and preference, thanks to our singular way of doing things. Our goal is to connect with people by enabling experiences that go beyond product features and innovation. For us, inspiration is the right path towards becoming our customer Wherever a customer needs us, **we deliver solutions**

# Based on you

#### We work to make your life easier, and to design products to be the perfect complement for your kitchen.

As we truly believe that the kitchen is the heart of our homes and our lives, we create products to be in harmony with your lifestyle. To help you choose and know which product best suits to your style, we have created three different lifestyle product categories, to have an option that suits you perfectly. All our products are classified by these three lifestyles, to facilitate the search and comparison of products.

#### MAESTRO

The products of the **MAESTRO** range are designed for the most demanding ones. For those in love with the kitchen who want to enjoy the latest innovations, and who enjoy haute cuisine in their home. With this range, you will get the most out of your gastronomic skills, and you will have at your disposal the best options for your appliances.

If you are looking for the most powerful induction hob, the oven with more features & possibilities, or the quietest hood on the market, this is your range.

#### TOTAL

The **TOTAL** range is made for those who love to cook and do not want to give up having the best options at their fingertips.

An option designed for those who want the best results at the minimum consumption. People who care about the environment so they choose eco appliances.

#### EASY

The **EASY** range is designed for those looking for functional appliances, with good performance and at a fair price. Simple but smart solutions affordable for everyone.

# Welcome to the INFINITY $\infty$ DESIGN

#### **INFINITY** DESIGN

The kitchen is the living center of all houses. Almost everything that matters to us happens in the kitchen. Laughter, Conversations, Desire, Decisions, Dreams, Propositions, Destiny itself.

The kitchen goes beyond just preparing food. It's where small things become essential. That is why Teka wants to be the enabler of unlimited moments that make life worth living, making your kitchen your favorite place in your home.

In this context, Teka has created "Infinity design", a new modern, authentic, and stylish concept of design to inspire unlimited experiences.

# **Design** & its principles

Following Dieter Rams idea that "great design is making something memorable and meaningful", we want to design experiences that simplifies everything and responds to our consumers deepest desires, delivering more than pure function and utility.

This is Teka Infinity Design, an authentic style that creates unlimited experiences, turning the functional into human with a sensitive approach, creating outstanding consumer experiences and helping shape living for the better.

It's based in the essence of four principles: minimalism, daring, genuine and intuitive.

"Infinity design" is a new way to add soul to your kitchen. In that sense, our appliances have been designed to help to create the perfect environment that best fits with your life style.

18

#### **Minimalism** with performance

where we apply a very pure and functional design expressing the best of the product can offer.

#### **Daring** with uniqueness

is our way to say that Teka products are unique from the overall quality of materials, fit, feel and finish filling the gap between form and functionality to perfectly fit in any kitchen environment.

#### **Genuine** with attitude

gives to our design an accent touch bringing character to our products.

#### **Intuitive** with simplicity

is our commitment to products that are simple, clear and precise. The kitchen is becoming connected and we want to ensure that every experience has a sensitive and human touch.

# Art

In the same direction and as Robin Mathew (Indian designer) said, "Design is where science and art breakeven".

In Teka we want to provide the best solutions with cutting edge technology balanced with the art aspect, delivering unlimited alternatives through the Infinity Design.

As in design, art is made to provoke emotions and thoughts. Our vision is to inspire people bringing art to the kitchen adding more emotion in everyday life.

We believe that in the kitchen is where life really happens. Why not add art in this environment?

Teka wants to bring out your inner artist, and through its products spread art into the kitchens.

Eating is a necessity, but cooking is an art.

# Where cooking meets art

We are passionate about architecture, design and art. That is why we collaborate with different associations and institutions to support art and design.

#### THYSSEN-BORNEMISZA MUSEO NACIONAL

Teka sponsors the gastronomic tour of the Thyssen-Bornemisza National Museum in Madrid, made up of 17 masterpieces from the 15th to the 20th century, representing gastronomy as a source of pleasure and emotion.

This tour helps us to understand the meaning and history behind these works.

#### MUSEO MODERNO

Teka is present as a sponsor in one of the main Modern Art museums in Latin America, the MAMBA.

During the years of 2019 and 2020, Teka has sponsored different modern art exhibitions, by artists such as Sergio De Loof, Alberto Greo or Lea Lublin.

Located in the Born district in Barcelona, the European Museum of Modern Art is an architectural gem located in the Gomis Palace and has more than 230 masterpieces of contemporary art.

Teka, as main sponsor of the museum, collaborates in the cultural dissemination that it carries out through various activities, among which are art exhibitions, shows, workshops or concerts.

# **Design** and sophistication

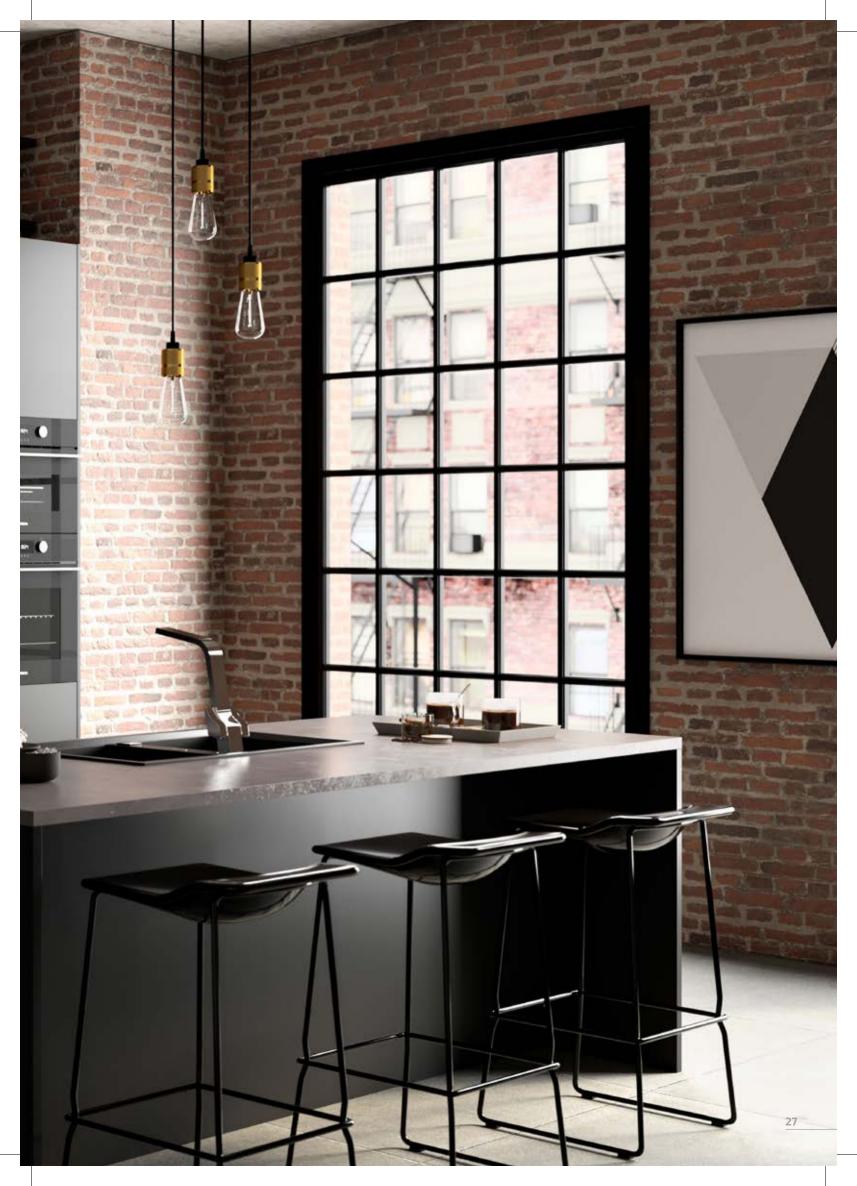

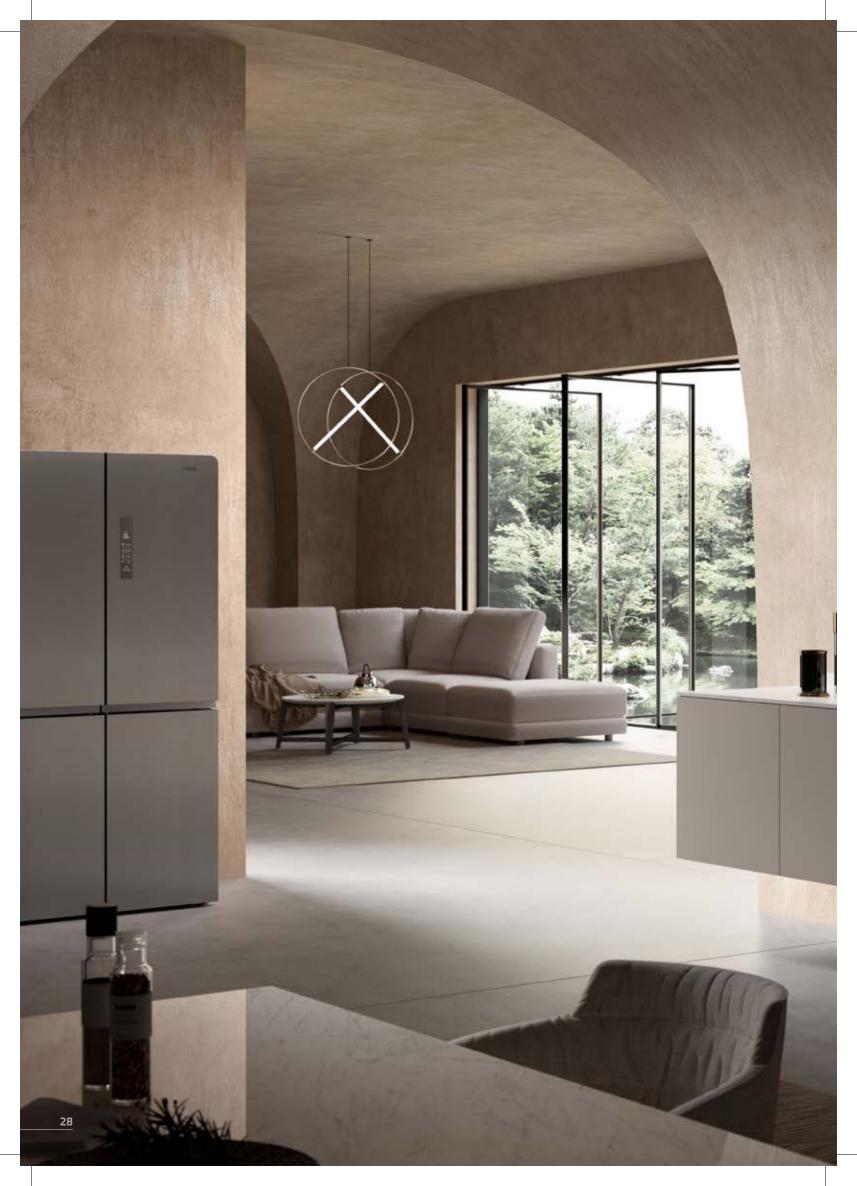

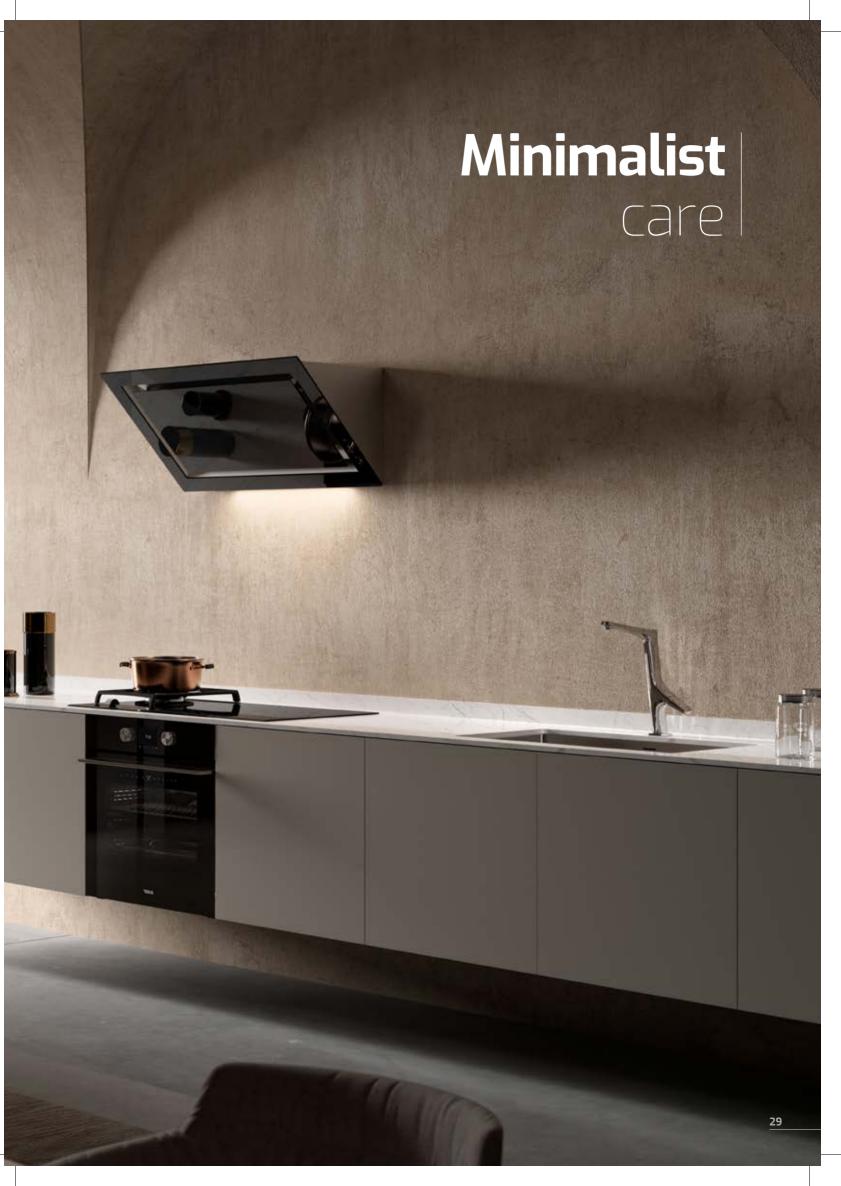

# URBAN COLORS EDITION

Urban Colors Edition has been created inspired by urban iconic elements from the biggest capitals of the world.

In this edition are reflected objects and materials that have marked the big cities for the past 100 years. From the urban steam to London's iconic bricks, passing through stone pavements and the longest city rivers. For the first time, color combinations are possible in the main kitchen elements: oven, hood, induction hob, gas hob, microwave, coffee machine, compacts, refrigerator, sinks and taps.

#### Choose just one color or combine them your way

#### NIGHT RIVER BLACK

a.

Ø / · · · Ø

3 . 3

0 - 0

the second

....

A collection inspired by the night reflection of the great urban rivers, like the Tiber, Seine, the Thames, Danube or Rhin. Dark tones with an elegant finish, that mimic with the rest of your kitchen, offering a discreet, modern and unique result.

#### LONDON BRICK BROWN

A special and distinctive color, inspired by the brick originating in the streets of London. Brown tones for the riskiest ones and for those who want to feel the freedom and the authenticity of the British capital in their kitchen.

#### STONE GREY

Stone grey have born from the roads of the European capitals. Cobbled paths with hundreds of years behind that combined with modern elements. This collection is a reference of design and architecture, a cosmopolitan and exclusive tone for your kitchen.

#### STEAM GREY

Steam is an unmistakable element in our culture. Generated in old ships and trains and present nowadays in New York or Chicago streets. An original color, which moves away from a classic line, creating harmony in your kitchen.

#### WHITE MARBLE

Formed by the tone of the purest and most exclusive element: marble. Present in our civilization for millennia, existing in some of the most important pieces of art in the history of mankind, yesterday and today. From the Parthenon to the Arc de Triomphe. From the Taj Mahal to the Duomo. From the Capitol to the Colosseum. A color that fills your kitchen with purity and beauty.

Metallic edition adapts to the new trends with bright and attractive colors. The harmony of the color blends into a unique and pure space purity. Metallic edition reaches the perfect balance between design and robustness under two unexpected collections: Brass Collection and Titanium Collection.

The Collections offer an avant-garde design based on pure lines and PVD coatings. A unique contemporary touch to your kitchen.

# Country Style Edition

**ø** 

Country Style Edition is here, a collection combining rustic style design with the ultimate features in the kitchen.

6

6

1

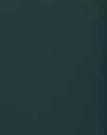

Warm colors and curved shapes, with rugged interior design as a symbol of rustic and modern styles coexisting together, ready for those who look for rustic design but also for those who want the best features in the kitchen.

Faster and more efficient devices designed for your comfort to be the center of your kitchen.

These products were created to blend in with a countryside kitchen style, perfectly integrated with the warmth of wood, strength of metal or stone.

An edition designed to keep the warm and cozy countryside kitchen style to conform a welcoming room to enjoy the big moments.

TEKA

# SINKS

### Quality, technology and innovation above all

Every day we work to better understand your needs and create new solutions to help, all by finding new possibilities in the kitchen.

### Teka devotes itself to top quality

Teka sinks are manufactured the same way a chef perfects his recipes: with the very best ingredients. The most popular material for kitchen sinks today is stainless steel: non-porous, superbly hygienic, rust-free, heat resistant and extremely durable. The stainless steel used in the manufacturing of our sinks contains the necessary amounts of chromium and nickel to create a product that is extremely resistant to denting, noise and temperature changes. Made to last a lifetime! The highest quality materials, together with the best design and functionality, make Teka sinks the silent protagonists in any kitchen.

# More than just a sink

### Lifetime Warranty

### More than 90 years of experience in the manufacturing of sinks allows us to offer the best guarantee

Teka sinks are defined by their top quality, durability, extremely resistant austenitic stainless steel, ergonomic design, functionality, hassle free installation and excellent service. They are made in Europe and all our factories have the highest quality certifications and are environment friendly.

### Sinks with unlimited lifetime warranty

At Teka, we are so confident in our quality standards that we offer an unlimited lifetime warranty on all of our stainless steel kitchen sink models for you to be completely at ease. Visit teka.com for more information.

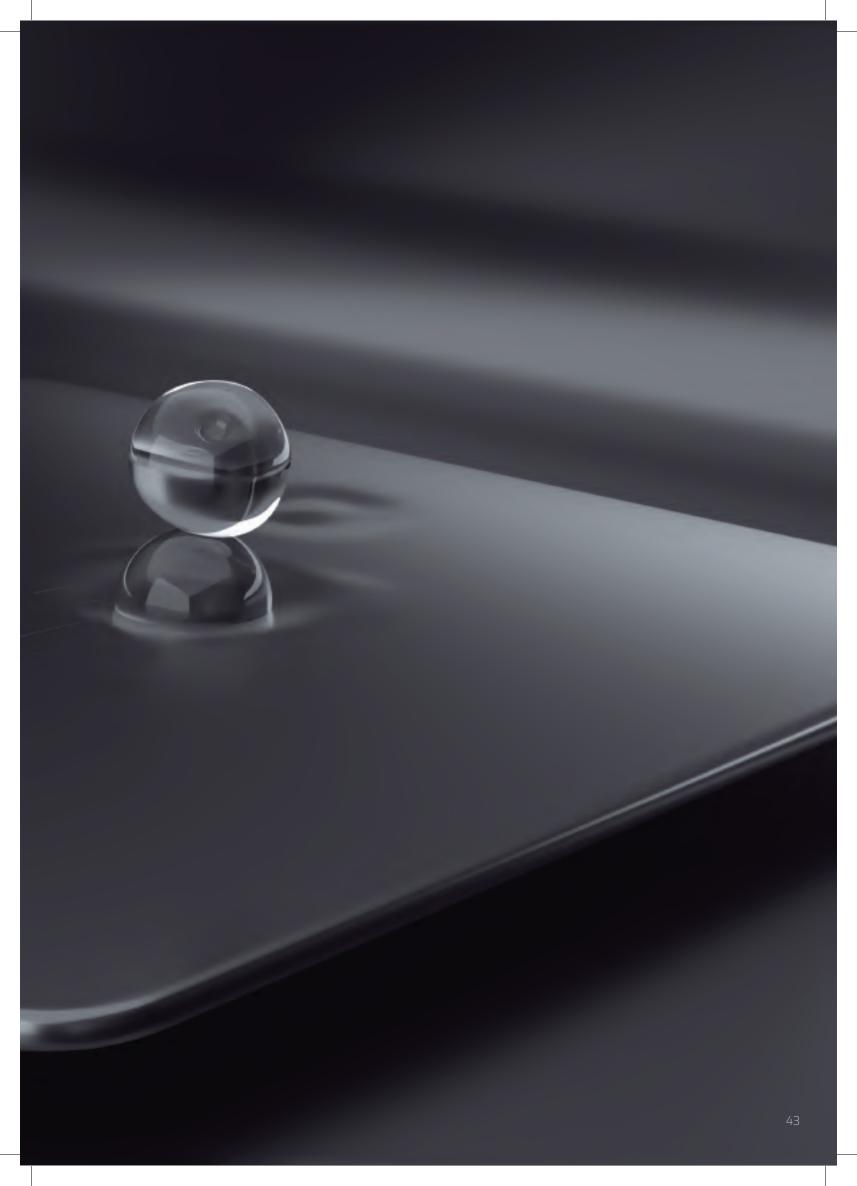

\* Warranty only applicable for residential products. Fitting excluded. All product exchanges and returns require Teka's express approval. Tap and accessories excluded.

### **SilentSmart,** the invisible protagonist

## 50% less noise: maximum comfort and well-being

Is the kitchen sink one of the source of irritating noise that affects your family? RS15 Series are the best in their class. They feature a design and low-noise component to make them extremely quiet. The sound-dampening pads are their best partner. They, together with their special distribution, can reduce noise when water falls during operation, ensuring your comfort and convenience all day.

### **A pure work** of art, RS15 Series

If you want to enjoy your meaningful moments in an avant-garde kitchen, start by choosing a sink by Teka; it will provide your kitchen with a touch of character.

Discover everything it has to offer.

## A touch of distinction and class for your kitchen

RS15 Series is characterized by:

- Teka Radius 15 offers a clean design that embodies modernity.
- The integrated manufacturing process stands for environment friendly and efficient production.
- Sinks made with high stainless steel quality, AISI 304, that grants durability and allows easy cleaning.
- An elegant design with more capacity: bowls with a depth of 20 cm!
- Deeper, more possibilities. Teka sinks allow you to wash any kitchenware even the biggest pots!
- A new SQ valve to gently cover the square basket waste, providing a refined and attractive touch in the kitchen.
- Just decide which one suits you, RS15 Series sinks range is recognized by its flexible installation: undermount, top, flush and inset.
- All the product range comes with lifetime warranty and the new SilentSmart system, which reduces water dripping sound by 50%

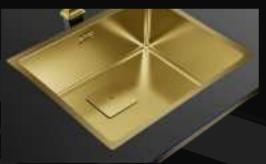

### **Outstanding design** PVD finish

The new PVD sinks adapt to the new trends with bright and attractive colors. They reach the perfect balance between design and robustness under two unexpected collections: Brass and Titanium.

Undermount

Flush mount

### A unique contemporary touch to your kitchen that offers:

- **Top quality finish.** Thanks to PVD treatment, physical vapor deposition, the natural hardness of stainless steel is increased, allowing an easy maintenance and cleaning. The color of the material is obtained by the evaporation of the metal that adheres to the stainless steel surface, creating a layer in color.
- **Perfect combinations.** The new colors incorporate a wide variety of kitchen taps to get the perfect ambiance with a guaranteed design.
- A touch of distinction and class for your kitchen. Just decide which one suits you better. This sink is recognized by its flexible installation: top, flush or undermount installation.
- Details that make the difference. The new SQ Valve is designed to cover the waste with its square-shaped decorative lid, maintaining the elegance of your sink.
- Bowls with a depth of 20 cm.

Top mount

### **PureClean,** Extra hygiene and cleanliness with the new waterproof treatment

Our new PureClean treatment gives you a clean and dry surface, preventing the build up of bacteria in your sink. In addition to the antiseptic benefit of stainless steel, with this coating, lime, dirt, and all the particles that previously remained in the sink can be drawn away, giving you a cleaner and more hygienic product.

#### Anti-fingerprint, an impeccable result.

With the premium SofTexture finish that provides an antifingerprint surface, with a matte look that fits perfectly with the latest trends in kitchen design.

### Design, a touch of sophistication through a cleaner and modern design.

Its RS15 radius makes it easy to clean and drain the water. The decorative elements elegantly cover the base of the sink. Greater capacity with a depth of 20cm.

### **Diamond Series,** the jewel of the kitchen

Diamond sinks are the best solution to combine with the rest of Teka glass domestic appliances.

#### Discover all the new possibilities that Diamond Series offers you:

- Black or white, one bowl, two bowls, one bowl and drainer... what is your choice?
- Different shapes and sizes available to choose the best sink that suits your style.
- With the same quality as a hob, the safety tempered glass is resistant to impacts, high temperatures and temperature changes.
- Diamonds Series are born with elegant and pure lines that offer a modern design. The straight lines aligned with the new automatic square-shaped SQ valve add personality to your kitchen.
- Without forgetting the tranquility offered by the Lifetime warranty and the new SilentSmart system.

DIAMOND RS15 2B 86

DIAMOND RS15 2B 1D

### **FlexLinea,** a series with multiple possibilities

FlexLinea sinks offer distinction and versatility at all levels.

#### FlexLinea, a series of sinks that satisfies all tastes

Flexibility is one of the main priorities for Teka, that's why this series has been developed.

It offers a wide variety of different sink compositions in different sizes, all of them with overflow and squared waste, to offer a look according to current trends, along with the easy-cleaning radius 15.

A sink you can install in all kind of countertops thanks to its triple mount installation option: undermount, top mount of flush mount.

All the series comes with lifetime warranty and SilentSmart system which reduces water dripping sound by 50%.

They are the best of their kind, the integrated manufacturing process stands for environmentally friendly and efficient production.

Enjoy the peacefulness offered by the lifetime warranty and the new SilentSmart system.

Undermount

Top mount

Flush mount

### Zenit Series, multifunction workstation

Zenit Series are distinguished by their versatility, and, above all, because they bring order in your kitchen.

### More than just a sink

Zenit is not simply another series of sinks. It is a food preparation area with ergonomic accessories perfect to cut, wash, cook, serve, and... enjoy! Its new square-shaped SQ valve combines with the attractive straight lines that bring personality and design to your kitchen, with a professional look and the peace of mind offered by the lifetime guarantee and the new SilentSmart system.

### **Zenit Cooking Set**

Teka has developed an exclusive cooking set that includes:

- 3 ceramic dishes of different sizes suitable for ovens, microwaves and dishwashers.
- Bamboo chopping board.
- Set of silicone lids that allow you to preserve food.
- The square-designed inox soap dispenser, An inox colander that stands on the bowl rim.
- A popup waste match perfectly with Teka sinks.

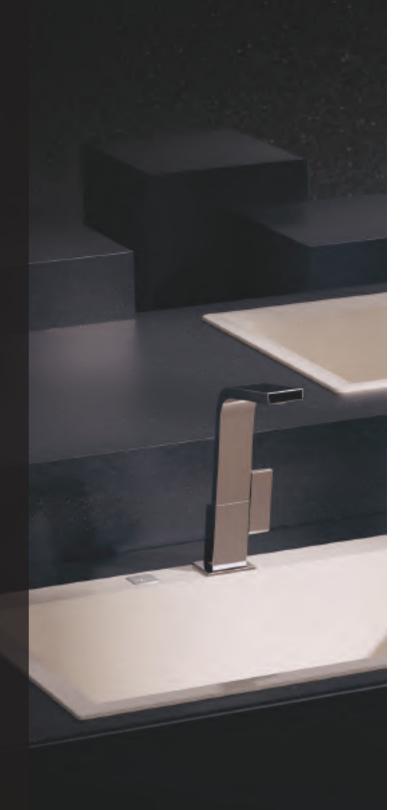

## **Tegranite+,** high quality

Teka Tegranite+ sinks have evolved into a work area for kitchen lovers that look for innovation, practicality and functionality in the kitchen.

**Stone, Forsquare** and **Square** are the series for our new Tegranite+ products. They were made with high quality Quartz, a material on the rise. 80% Quartz combined with acrylic resins to obtain a hardened material very resistant to thermal shocks, impacts and dirt. In addition, it is available in a wide range of colors. Quality and color... you can choose!

- **Scratch-proof surface:** high resistance surface to high temperatures and violent shocks.
- **Color intensity:** Excellent UV resistance and long color durability. Its specific method in coloring granite-particles provides higher resistance against decoloring.
- **Hygiene:** The material is non-porous, its surface is very easy to clean and leaves no place for bacteria.
- Food safe: Additionally, Tegranite+ have an anti-bacterial protection enriched by silver ions which reject bacterial microorganisms.
- **Easy to clean:** Tegranite+ features an odorless and stainresistant finish. Cleaning up couldn't be any easier or faster!
- **High-resistant packaging** to minimize breakage. The sink is suspended and fully protected inside a twin double-box, creating a safety perimeter to avoid impacts.

Teka only endorses sinks made of innovative materials, that have great durability and are easy to clean.

### **Universe,** unique personality

The new Universe series was born with details in mind, offering the best solution with a unique and avant-garde design. It stands out for its variety, functionality and the beauty of its surface.

#### Wide variety of solutions for your kitchen:

the new Universe series offers a range of compositions, sizes and finishes to choose the sink that best suits your lifestyle.

**Greater capacity** for utensils with buckets up to 195 mm deep.

### **StarBright,** comfort and fashion together

The new series of StarBright sinks offers a timeless style to your kitchen, adapting easily to your space thanks to its functional and contemporary design.

### Flexibility in your kitchen

Deciding whether to place the drainer on the right or left will no longer be a problem - you can choose where to locate the drainer for your sink thanks to the different compositions and sizes offered by this new range. In addition, because of its design, water flows away easily, meaning the sink's condition will be better looked after and it will last for much longer.

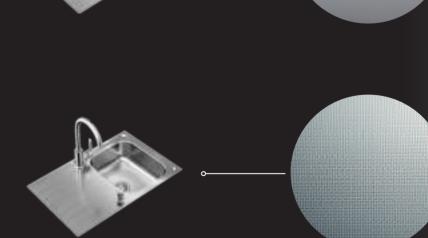

# **Stainless Steel finishes,** a long time durability

As experts in the work of stainless steel, you can choose your sink between these finishes.

**Polished:** an elegant finish that can be found in a large number of Teka sinks. The steel is subjected to various processes of both manual and mechanical polishing, obtaining a product with a lasting shine and easy cleaning. A sink that is impervious to water stains and calcium deposits.

**Natural:** deep drawing process produces an uniform pattern of satin finish lines on the surface and a natural transition: from the initial brightness of sink's top to the matt finish of the bowl where stainless steel has been stretched to its limits.

**Micro-textured:** those with a rough surface in high relief on the surface of the sink that combines perfectly with the aluminized finishes of the kitchen.

### **Customizable sinks,** different compositions in a single model

Our experience allows us to offer a wide range of compositions in our products, different alternatives to offer you a sink with everything you need to make household tasks easier.

#### Reversible

Sinks with two installation versions, right or left. Thanks to the symmetry of the product, choose the position that suits you better.

#### Disposition

Choose the number of buckets for your new sink, with or without a drainer.

#### **Automatic**

A practical system that takes care of drainage through a button on the surface of the sink, allowing the container to be emptied without contact with hot water, detergent or small food residues that accumulate in the bucket. It also makes it easy to close the drain or fill the container with water.

#### Material

In addition to stainless steel, you will find other options such as glass and granite.

Granite

#### Waste

Waste is trapped by 3 <sup>1</sup>/2" or 1 <sup>1</sup>/2" baskets that trap food particles left over from washing or cleaning vegetables or fruits, preventing their entry into the sewer system.

#### Accessories

They include the necessary accessories to install the sink in an easy and simply way. You can add other accessories such as strainers, soap dispenser, cutting boards, etc.

### **Teka sinks, maximum** installation flexibility

When choosing a sink, it is necessary to consider the style of kitchen, and what can be more functionally comfortable.

#### Undermount

A popular option to install with stone, granite and modern composite materials. This sink is mounted and caulked from underneath using the special clips provided. Undermounting is very easy to clean, and prevents dirt from getting stuck around or below the rim, the countertop is completely smooth and the sink looks elegant and practical. The sink is absolutely waterproof!

#### **Top mount**

A slimmer rim grants for an accurate positioning of the sink on your countertop. It is suitable for countertops of any material, and it is recommended especially for wood or laminates. Its small rim prevents water spilling onto the countertop.

#### **Flush mount**

Sink and countertop become one solid unit, free of awkward edges and corners. The rim of the bowl is milled into the countertop, the cut-out must be very accurate. The totally seamless working area is also aesthetically pleasing and easy-to-clean. Ideal for natural materials like stone where milling is not a problem.

#### Inset mount

The most traditional method of installation. Simply insert from above into a prepared cut-out, and the rim of the sink sits on the work surface. Teka drop-in sinks can be mounted on virtually any worktop. The sink is fastened to the worktop from underneath, with no screws or bolts showing.

#### Lay on

Teka lay-on sinks are only superimposed, do not need, or use clips.

The stainless steel of the sink surrounds the edge of the countertop Lay-on sinks can be delivered with wood supports at the sides (below the rim) to aid installation while providing structural reinforcement.

## **Tekaway,** Plug & Play

At Teka we care about offering you different solutions for all the needs that arise in your kitchen. As well as taking care of the design and quality of our sinks, we seek to go one step further: to offer a quick, easy and accessible solution.

Tekaway is a kit consisting of the sink, the tap, and accessories such as the soap dispenser, the strainer and the siphons, all in one place.

# TAPS

# The perfect **partner**

Sinks can be described using endless adjectives. They can be robust, elegant, powerful, etc. But, they are nothing without their counterpart: The Tap. From professional to economical ranges, Teka manufactures taps created with imagination and designs them to last. Now, enjoy your time with the perfect kitchen pair.

# **OPERA ICO 915,** sleek stylish line

An exclusive, fresh and state-of-the-art design, focused on making an essential part of the kitchen, the tap, more functional. The revolutionary concept of open spout with its 5 aerators means a significant water saving, optimizing water flow.

A tap with personality to fit the style of your kitchen and to add a professional design to it, with its striking look. Nobody will remain indifferent to this tap.

# **Outstanding design** PVD finish

Our new taps are part of the Metallic Edition and are recognized for their refined lines, soft angles and stylised curves.

The color of the material is obtained by the evaporation of the metal that adheres to the surface of the tap creating a color layer.

•Avant-garde design. The tap design based on pure lines provides a unique contemporary touch to your kitchen.

•Metallic beauty: Brass and Titanium. Comes in exclusive colors in PVD. The gold metallic decoration gives a luxurious appearance, while titanium is the latest decoration trend.

•**Perfect combination.** The colors Brass and Titanium match perfectly with the new PVD kitchen sinks.

•**Top quality finish.** The PVD treatment - physical vapor deposition - allows an easy maintenance and cleaning.

•Anti-fingerprint finish. A special coating creates a barrier that prevents the intrusion of oxygen and moisture and makes the tap resistant to fingerprints.

• **Smooth as silk.** Thanks to the high resistance of the ceramic disks used in our cartridges, the tap moves smoothly and gently which helps to increase its lifespan.

# TekaPure®, **Purifies water in depth**

Water free of impurities, the particles will be trapped in the filter.

• Eliminates up to 95% of unpleasant water taste and odour.

• Removes the taste of chlorine and organic impurities.

• Filter operating capacity: 5800 litres or 1 year. Average water consumption per family of 4 people = 4.380 l/year (3 l/day per person).

· Quick and easy replacement of the cartridge system.

• The filter system takes up very little space under the sink, making it suitable for small spaces.

• Filter cartridge replacement available.

• Filter with NSF sanitary certification. System tested and Certified by NSF International according to ANSI/ NSF Standard 42 for reduction of Chlorine Class I, taste and odour.

# **Overcome** barriers

The best place to place the sink and the kitchen tap is in front of the window, if space permits. Opening or closing the window with a high spout tap ahead, is no longer a problem. Aura AUK 983, the single-lever retractable mixer tap from Teka, allows you to hide or extract your high spout whenever necessary so that nothing stumbles in your way. Thanks to its 2 positions, Aura offers maximum flexibility in the kitchen.

# Teka ceramic discs

All Teka cartridges use sintered ceramic discs with high resistance. These discs all have porous surfaces which retain grease longer, helping to achieve smoother, gentler movements which help to prolong the life of the taps. The operating gear is insulated from water giving therefore continuous lubrication.

# Ceramic cartridge. Greater durability.

# **Temperature limiter**

Save the energy used to heat the water with the temperature regulator that is incorporated into the cartridge.

# Water saving

The cartridge incorporates an adjustable flow gauge to save water every time you use the mixer.

# **Anti-Scalding**

Forget about scalding caused by water at high temperatures. We take care of you and your loved ones.

# **High Spout** T

# ACCESSORIES

# **Total hygiene** in your kitchen

Teka's organic waste disposers help to keep the kitchen free of bacteria, odors, and rubbish in a comfortable and hygienic way. It converts the waste into very fine particles that are removed through the pipes, reducing the volume of rubbish in the kitchen and the amount of plastic bags that are used.

# Only **benefits**

•Greater hygiene in your kitchen.

•Sustainability: reduces the accumulated rubbish as well as the use of bags.

- Safety: Teka's waste disposals do not use blades or fans for operation.
- The disposers are very **quiet** thanks to their high-torque induction motor and their new grinding technology.
- They do not need maintenance.
- Their consumption of water and energy is minimal.

# Did you know ...?

Teka's waste disposers are designed for any type of sink; they only need a  $3^{1/2}$  value in addition to a grounding point for installation and optimal operation.

They can practically eliminate any type of organic residue, even chicken bones. Avoid shell debris from some molluscs and foods with fibre or that are especially greasy, such as banana or onion skins.

A mounting adaptor for sinks with square valves is available as optional accessory.

A 50mm drain is the best size to install the disposer.

## **TR 550**

Food waste disposer Stainless steel grinding system, continuous feed Corrosion protection Sound reduction technology Pop-up basket stopper included Large capacity grinding chamber: 980 ml Accessories included: built-in air switch and plumbing kit

Motor Power: 0.55 hp (380 W)

## **TR 750**

Food waste disposer Stainless steel grinding system, continuous feed Corrosion protection Sound reduction technology Pop-up basket stopper included Large capacity grinding chamber: 980 ml Accessories included: built-in air switch and plumbing kit Motor Power: 0.75 hp (405 W)

## **TR 34.1 V-TYPE**

Food waste disposer Stainless steel grinding system, continuous feed Corrosion protection Sound reduction technology Black plastic stopper included Large capacity grinding chamber: 1.200 ml Accessories included: built-in air switch and plumbing kit Motor Power: 0.75 hp (600 W)
